The Third Mind Theory, Non-Self and Trans-Egoism Abeer Almadawy, 2026-02-16 The Third Mind Theory Non Self and Trans Egoism New Philosophical School By Philosopher Abeer Almadawy A Scientific and Philosophical research of third mind and Introduction to establish the New School of philosophy Non Self and Trans Egoism Academic Description The Third Mind Theory and the Philosophy of Non Self and Trans Egoism by philosopher and researcher Dr Abeer Almadawy presents an original philosophical and cognitive study that introduces a new framework for understanding human consciousness identity and ethical awareness The book proposes the Third Mind Theory as a comprehensive model of human cognition that expands beyond traditional dual theories of the conscious and subconscious mind In this model the Third Mind functions as a central integrative cognitive system responsible for collecting organizing and transforming information generated by both conscious reasoning and subconscious processes throughout the human lifespan Rather than approaching consciousness through metaphysical or theological assumptions the theory is developed within a philosophical epistemological framework examining how meaning awareness memory and ethical orientation are formed and preserved in human experience The Architecture of the Mind The book examines earlier theories of the mind clarifying the functional limits of the conscious mind associated with perception reasoning and decision making and the subconscious mind associated with memory emotional patterns and conditioned responses It then introduces the Third Mind as a mediating and unifying cognitive level that enables coherent self awareness continuity of identity and reflective understanding beyond reactive thought Within this structure the Third Mind operates as a human record of experience transforming lived events into structured meaning rather than merely storing fragmented memories Non Self and Trans Egoism The second core contribution of the book is the philosophy of Non Self and Trans Egoism a school of thought founded by Dr Abeer Almadawy through her philosophical and literary works Non Self is presented as a critical philosophical process aimed at dismantling false ego based identification without negating individuality responsibility or rational agency It challenges the dominance of the ego as the center of consciousness and exposes its role in conflict fragmentation and ethical distortion Trans Egoism represents the reconstructed stage of awareness in which the ego no longer governs perception and decision making but functions as a regulated cognitive tool In this state the individual achieves ethical clarity without dogmatism awareness without detachment autonomy without narcissism
