The Third Policeman Flann O'Brien, 2019-11-12 One man wants to publish so another must perish in this darkly witty philosophical novel by a spectacularly gifted comic writer Newsweek *The Third Policeman* follows a narrator who is obsessed with the work of a scientist and philosopher named de Selby who believes that Earth is not round but sausage shaped and has finally completed what he believes is the definitive text on the subject But broke and desperate for money to get his scholarly masterpiece published he winds up committing robbery and murder From here this remarkably imaginative dark comedy proceeds into a world of riddles contradictions and questions about the nature of eternity as our narrator meets some policemen with an obsession of their own specifically bicycles and engages in an extended conversation with his dead victim and his own soul which he nicknames Joe By the celebrated Irish author praised by James Joyce as a real writer with the true comic spirit *The Third Policeman* is an incomparable work of fiction Tis the odd joke of modern Irish literature of the three novelists in its holy trinity James Joyce Samuel Beckett and Flann O'Brien the easiest and most accessible of the lot is O'Brien Flann O'Brien was too much his own man Ireland's man to speak in any but his own tongue *The Washington Post*

Revisiting Modernism Maria-Ana Tupan , By shifting the centre of gravity from author to reader Roland Barthes had certainly prepared us for a Copernican turn in aesthetics yet Michael J Pearce's *Art in the Age of Emergence* still sounds unfamiliar two years after its publication While acknowledging the existence of homologues among the art objects of a cultural phase the Californian academic also launches an explanatory hypothesis I realized that in order to understand art instead of looking for the similarities between the paintings and the sculptures we have to look at the similarities between the people looking at them Art is better explained by looking at how the mind works than by looking at the products of mind XV The substitution of the phenomenology of mind for the phenomenology of the work of art can only have a partial contribution to the understanding of period terms yet not devoid of relevance The numerous studies in modernism published of late for instance are revisionary the changing views being motivated by the new historical context rather than by a new assessment of forms The mind turns out to be working according to the critical theory it has been exposed to or which it has freely embraced Relegated to the status of socio political movement without aesthetic significance since 1939 when Clement Greenberg associated it with kitsch to Renato Poggioli Peter Bürger or Christopher Butler *Early Modernism Literature Music and Painting in Europe 1900-1916* 1994 the avant garde came to be enshrined as the weightiest artistic phenomenon and the last post of modernism by Richard Sheppard in *Modernism Dada Postmodernism* 2000 who joined thus a new party of postmodern critics among whom Linda Hutcheon who see the historical avant garde as the generative matrix of the post war literature in the 50s and the 60s stretching the term to include the French nouveau roman or the Tel Quel Quoted by Sheppard on Marx's Communist Manifesto being the first great modernist work of art Marshall Berman *All That Is Solid Melts into Air* 1982 too welcomes modernism into the sixties and seventies Titles such as *Avant Garde* and *After Rethinking Art Now* by Brandon Taylor have tilted the scales measuring modernism against the avant garde into a more balanced position even if also the leads of the earlier twentieth century have been the object of New Historicist and culturalist approaches that corrected the Axel Castle icon of egocentric aloofness through readings that evinced the substantial presence of history in the writings of Woolf Joyce or D H Lawrence With interdisciplinarity the latest buzz word in the academic world lots of studies have been dedicated to the influence of Non Euclidian Geometry relativity and quantum physics on modernist art for instance *Surrealism Art and Modern Science Relativity Quantum Mechanics Epistemology* by Gavin Parkinson 2008 The most spectacular renovation has

Haverty, Stephen J. Richardson, 1903 *The Distance of Irish Modernism* John Greaney, 2022-06-16 The Distance of Irish Modernism interrogates the paradox through

which Irish modernist fictions have become containers for national and transnational histories while such texts are often oblique and perverse in terms of their times and geographies John Greaney explores this paradox to launch a metacritical study of the modes of inquiry used to define Irish modernism in the 21st century Focused on works by Samuel Beckett Elizabeth Bowen John McGahern Flann O'Brien and Kate O'Brien this book analyses how and if the complex representational strategies of modernist fictions provide a window on historical events and realities Greaney deploys close reading formal analysis narratology and philosophical accounts of literature alongside historicist and materialist approaches as well as postcolonial and world literature paradigms to examine how modernist texts engage the cultural memories they supposedly transmit Emphasizing the proximities and the distances between modernist aesthetic practice and the history of modernity in Ireland and beyond this book enables a new model for narrating Irish modernism
