

Threat	Property Violated	Definition	Example
Spooing	Authentication	Impersonating something or someone else.	Pretending to be any of Bill Gates, Paypal.com or ntdll.dll
Tampering	Integrity	Modifying data or code	Modifying a DLL on disk or DVD, or a packet as it traverses the network
Repudiation	Non-repudiation	Claiming to have not performed an action.	"I didn't send that email," "I didn't modify that file," "I certainly didn't visit that web site, dear!"
Information Disclosure	Confidentiality	Exposing information to someone not authorized to see it	Allowing someone to read the Windows source code; publishing a list of customers to a web site.
Denial of Service	Availability	Deny or degrade service to users	Crashing Windows or a web site, sending a packet and absorbing seconds of CPU time, or routing packets into a black hole
Elevation of Privilege	Authorization	Gain capabilities without proper authorization	Allowing a remote internet user to run commands is the classic example, but going from a limited user to admin is also EoP.

Threat To Development:

Research, development, test, and evaluation United States. Congress. House. Committee on Appropriations. Subcommittee on Department of Defense,1986 Research and Development United States. Congress. Senate. Committee on Armed Services,1980 Department of Defense Appropriations for 1987: Research, development, test, and evaluation United States. Congress. House. Committee on Appropriations. Subcommittee on Department of Defense,1986 **The English Future, Its Origin and Development ...** Francis A... Blackburn,1892 Development in Crisis Rae Lesser Blumberg,Samuel Cohn,2015-08-20 Development in Crisis Threats to human well being in the Global South and Global North is a provocative engaging and interesting collection of real world case studies in development and globalization focusing on under emphasized threats to growth and human welfare worldwide Created by two of America s top development sociologists it targets undergraduates graduates academics and development professionals Crises such as falling state capacity declining technological innovation increasing class inequality and persisting gender inequality are considered along with their economic and social consequences **RIDGEMONT DEVELOPMENT COMPANY V CITY OF EAST DETROIT, 358 MICH 387 (1960)** ,1960 60 **Risk and the Security-Development Nexus** Eamonn McConnon,2018-10-03 In this comprehensive and wide ranging analysis McConnon demonstrates the extent to which security concerns have come to pervade the development policies of the three major donor countries Rita Abrahamsen University of Ottawa Canada An original and compelling analysis of the security development nexus of three donor countries here combined with a closer look at how their policies play out in two recipient countries Kenya and Ethiopia which are actually more representative than the usual high profile cases of Afghanistan and Iraq McConnon s application of the risk management lens is theoretically innovative and insightful A most welcome contribution to the growing literature in this area Stephen Brown University of Ottawa Canada The argument that security has been brought in to mainstream development policy partly but not solely because of the War on Terror is here meticulously detailed The implication of this is that the security development nexus is not an abstract idea but a risk management strategy by the West Using extensive documentary evidence McConnon provides a very clear discussion of policy that has big implications for theoretical approaches to development and security Paul Jackson University of Birmingham UK This book explores the security development nexus through a study of the merging of security and development in the policies of the US the UK and Canada It argues that instead of framing this relationship as a securitisation of development it is best understood as a form of security risk management where development aid is expected to address possible security risks before they emerge Rather than a single entity the security development nexus is instead a complex web of multiple interactions and possibilities The work at hand is motivated by the increasingly close relationship between security and development actors which was a consequence of a number of protracted civil conflicts in the 1990s These cooperations were presented by donors as a common sense solution to conflict resolution and prevention with the

roots of many conflicts being seen to lie in development problems and security being considered a necessary condition to allow development projects to take place However McConnon concludes that the merging of security and development is still largely driven by conventional hard security concerns **U.S. Government Research & Development Reports** ,1965
