

Collaboration model framework for productivity enhancement

The highlighted slide illuminates essential factors such as communication, coordination, and cooperation, presenting a collaboration model framework for enhancing productivity. This framework serves as a strategic tool, fostering improved teamwork and efficiency within the organization.

Collaborative dimensions

- Coordination, Cooperation, Communication

Communication

- Enables information sharing and sense-making
- Crucial for collaborative activities
- Sense-making interprets information for understanding

Coordination

- Manages dependencies between activities
- Links directly to productivity in supply chain management
- Central practices: Resource-pooling and goal-congruence
- Resource-pooling allocates resources; goal-congruence aligns goals

Cooperation

- Entities work together for the overall goal
- Improves organizational performance
- Facilitated by leadership
- Involves cross-functional activities and employee empowerment
- Aims for decentralized decision-making with interconnected roles for better productivity

Virtual Collaboration Framework:

Virtual and Networked Organizations, Emergent Technologies and Tools Goran D. Putnik, Maria Manuela Cruz-Cunha, 2012-07-25 This book constitutes the thoroughly refereed post conference proceedings of the First International Conference on Virtual and Networked Organizations Emergent Technologies and Tools ViNOrg 2011 held in Ofir Portugal in July 2011 The 35 revised full papers presented were carefully reviewed and selected from over 60 initial submissions The papers cover a wide range of topics such as ubiquitous computing and organizations cloud computing and architectures grid computing human computer interfaces serious games data mining Web services cognitive systems social networks and other emergent IT IS approaches in various function domains such as decision support systems planning design control negotiation marketing management and many other in the context of virtual and networked enterprises and organizations

Facets of Virtual Environments Fritz Lehmann-Grube, Jan Sablatnig, 2010-02-17 In recent years the popularity of virtual worlds has increased significantly and they have consequently come under closer academic scrutiny Papers about virtual worlds are typically published at conferences or in journals that specialize in something entirely different related to some secondary aspect of the research Thus a paper discussing legal aspects of virtual worlds may be published in a law journal while a psychologist's analysis of situation awareness may appear at a psychology conference The downside of this is that if you publish a virtual worlds paper at an unrelated conference in this manner you are likely to be one of only a handful of attendees working in the area You will not therefore achieve the most important goal of tending conferences meeting and conversing with like minded colleagues from the academic community of your field of study Virtual worlds touch on many well established themes in other areas of science Researchers from all these fields will therefore be looking at this new interesting and growing field However to do effective research related to these complex constructs researchers need to take into account many of the other facets from other fields that impact virtual worlds Only by being familiar with and paying attention to all these different aspects can virtual worlds be properly understood
