SPY SCIENCE

MISSION

MISSION #1
Periscope - 1st Part

CLASSIFIED

BACKGROUND
The periscope you've been assigned has been specially placed in your room to help you spy on the neighbors of the top-down in the building. This allows you to see their clothes and other activities. You can use these mirrors because light always reflects off a mirror at the same angle as it hits the mirror. **How to assemble the periscope:** The mirrors inside are set at a specific 45 degree angle so when light enters the 1st mirror at the front mirror, the light reflects off to the second mirror behind the second mirror. When you look through the eyepiece, a second mirror reflects and out the top part.

MISSION OBJECTIVE
Using your periscope to spy on the neighbors, what can you see in your room? Can you see the neighbors? Can you see the "top-down" in the building?

Secret Agents Jeremy Packer,2009 Why does the secret agent never seem to die Why in fact has the secret agent not only survived the Cold War which critics and pundits surmised would be the death of James Bond and of the genre more generally but grown in popularity Secret Agents attempts to answer these questions as it investigates the political and cultural ramifications of the continued popularity and increasing diversity of the secret agent across television film and popular culture The volume opens with a foreword by Tony Bennett and proceeds to investigate programs figures and films such as Alias Austin Powers Spy Kids the new Bond Girl Flint Mission Impossible Jason Bourne and concludes with an afterword by Toby Miller Chapters throughout question what it means for this popular icon to have far wider currency and meaning than merely that of James Bond as the white male savior of capital and democracy **Science** John Michels (Journalist),1893
