**What Else But Home** Michael Rosen,2009-07-28 Michael Rosen s seven year old son Ripton one day decided to join a pick up game of baseball with some older kids in the park At the end of the game Ripton asked his new friends if they wanted to come back to his house for snacks and Nintendo Over time five of the boys all black and Hispanic from the impoverished neighborhood across the park became a fixture in the Rosens home and eventually started referring to Michael and his wife Leslie as their parents The boys began to see the Rosens as more than just an arcade of middle class creature comforts the Rosens began to learn the full stories of the boys fractured lives Soon Michael and Leslie decided that their responsibility like that of parents everywhere was to help all their boys get a start in life So began a turbulent learning experience all round beautifully and movingly depicted in What Else But Home It s a quest to escape the previously inevitable a test of the resilience of a newly assembled family a love story unlike any other and a celebration of the fact that whatever our differences baseball and commitment can help us bridge them

**What Else Is Pastoral?** Ken Hiltner, 2011-03-18 Pastoral was one of the most popular literary forms of early modern England Inspired by classical and Italian Renaissance antecedents writers from Ben Jonson to John Beaumont and Abraham Cowley wrote in idealized terms about the English countryside It is often argued that the Renaissance pastoral was a highly figurative mode of writing that had more to do with culture and politics than with the actual countryside of England For decades now literary criticism has had it that in pastoral verse hills and crags and moors were extolled for their metaphoric worth rather than for their own qualities In What Else Is Pastoral Ken Hiltner takes a fresh

look at pastoral offering an environmentally minded reading that reconnects the poems with literal landscapes not just figurative ones Considering the pastoral in literature from Virgil and Petrarch to Jonson and Milton Hiltner proposes a new ecocritical approach to these texts We only become truly aware of our environment he explains when its survival is threatened As London expanded rapidly during the sixteenth and seventeenth centuries the city and surrounding rural landscapes began to look markedly different Hiltner finds that Renaissance writers were acutely aware that the countryside they had known was being lost to air pollution deforestation and changing patterns of land use their works suggest this new absence of nature through their appreciation for the scraps that remained in memory or in fact A much needed corrective to the prevailing interpretation of pastoral poetry What Else Is Pastoral shows the value of reading literature with an ecological eye
