Async Communication Checklist:

Product Management in Practice Matt LeMay,2022-05-16 Product management has become a critical function for modern organizations from small startups to corporate enterprises And yet the day to day work of product management remains largely misunderstood In theory product managers are high flying visionaries who build products that people love In practice they re hard working facilitators who bring clarity and focus to their teams In this thoroughly revised and expanded edition Matt LeMay provides real world guidance for current and aspiring product managers Updated for the era of remote and hybrid work this book provides actionable answers to product management s most persistent and confounding questions starting with What exactly am I supposed to do all day With this book you ll learn What the day to day work of product management entails and how to excel at it Why no job title or description will resolve the ambiguity of your role How to bridge the false dichotomy between strategy and execution Why the temptation to focus on decks and documentation can be bad for your team and for you How to prioritize your time and pick your battles

Programming 16-Bit PIC Microcontrollers in C Lucio Di Jasio,2011-12-14 This guide by Microchip insider Lucio Di Jasio teaches readers everything they need to know about the architecture of these new chips how to program them how to test them and how to debug them

Fundamentals for the Academic Liaison Richard Moniz,Jo Henry,Joe Eshleman,2014-03-21 A core resource for any LIS student or academic librarian serving as a liaison this handbook lays out the comprehensive fundamentals of the discipline helping librarians build the confidence and cooperation of the university faculty in relation to the library

Software Architecture: The Hard Parts Neal Ford,Mark Richards,Pramod Sadalage,Zhamak Dehghani,2021-09-23 There are no easy decisions in software architecture Instead there are many hard parts difficult problems or issues with no best practices that force you to choose among various compromises With this book you ll learn how to think critically about the trade offs involved with distributed architectures Architecture veterans and practicing consultants Neal Ford Mark Richards Pramod Sadalage and Zhamak Dehghani discuss strategies for choosing an appropriate architecture By interweaving a story about a fictional group of technology professionals the Sysops Squad they examine everything from how to determine service granularity manage workflows and orchestration manage and decouple contracts and manage distributed transactions to how to optimize operational characteristics such as scalability elasticity and performance By focusing on commonly asked questions this book provides techniques to help you discover and weigh the trade offs as you confront the issues you face as an architect Analyze trade offs and effectively document your decisions Make better decisions regarding service granularity Understand the complexities of breaking apart monolithic applications Manage and decouple contracts between services Handle data in a highly distributed architecture Learn patterns to manage workflow and transactions when breaking apart applications
