Hall and Co. Staff,1992 **Red Earth** Bonnie Lynn-Sherow,2004 Before the great Land Rush of 1889 Oklahoma territory was an island of wildness home to one of the last tracts of biologically diverse prairie In the space of a quarter century the territory had given over to fenced farmsteads with even the racial diversity of its recent past simplified In this book Bonnie Lynn Sherow describes how a thriving ecology was reduced by market agriculture Examining three central Oklahoma counties with distinct populations Kiowas white settlers and black settlers she analyzes the effects of racism economics and politics on prairie landscapes while addressing the broader issues of settlement and agriculture on the environment Drawing on a host of sources oral histories letters and journals and agricultural and census records Lynn Sherow examines Oklahoma history from the Land Rush to statehood to show how each community viewed its land as a resource what its members planted how they cooperated and whether they succeeded Anglo settlers claimed the choice parcels introduced mechanized farming and planted corn and wheat blacks tended to grow cotton on lands unsuited for its cultivation and Kiowas strove to become pastoralists Lynn Sherow shows that as each group vied for control over its environment its members imposed their own cultural views on the uses of nature and on the legitimacy of the other in their own relationship with the red earth Lynn Sherow further reveals that racism both institutionalized and personal was a significant factor in determining how where by whom and to what ends land was used in Oklahoma She particularly assesses the impact of USDA policy on land use and by extension environmental and social change As agricultural agents railroads and local banks encouraged white settlers to plant row crops and convert to market farms they also discriminated against Indians and blacks And as white settlers prospered they in turn altered the relationship of Indians and African Americans with the land The transformation of Oklahoma Territory was a protracted power struggle with one people s relationship to the land rising to prominence while banishing the others from history Red Earth provides a perceptive look at how Oklahoma quickly became homogenized mirroring events throughout the West to show how culture itself can be a major agent of ecological change **People v Mezy; People v Hermiz, 453 Mich 269 (1996)** ,1996 101689 South Dakota History ,2001 Journal of the short story in English ,2007 Journal of Palestine Studies ,1990 **Railroad History** ,1994 **The Fragmented Dream** Howard A.
