The Trees:

The Tree Colin Tudge,2006-10-03 A blend of history science philosophy and environmentalism The Tree is an engaging and elegant look at the life of the tree and what modern research tells us about their future There are redwoods in California that were ancient by the time Columbus first landed and pines still alive that germinated around the time humans invented writing There are Douglas firs as tall as skyscrapers and a banyan tree in Calcutta as big as a football field From the tallest to the smallest trees inspire wonder in all of us and in The Tree Colin Tudge travels around the world throughout the United States the Costa Rican rain forest Panama and Brazil India New Zealand China and most of Europe bringing to life stories and facts about the trees around us how they grow old how they eat and reproduce how they talk to one another and they do and why they came to exist in the first place He considers the pitfalls of being tall the things that trees produce from nuts and rubber to wood and even the complicated debt that we as humans owe them Tudge takes us to the Amazon in flood when the water is deep enough to submerge the forest entirely and fish feed on fruit while river dolphins race through the canopy He explains the memory of a tree how those that have been shaken by wind grow thicker and sturdier while those attacked by pests grow smaller leaves the following year and reveals how it is that the same trees found in the United States are also native to China but not Europe From tiny saplings to centuries old redwoods and desert palms from the backyards of the American heartland to the rain forests of the Amazon and the bamboo forests Colin Tudge takes the reader on a journey through history and illuminates our ever present but often ignored companions

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
