The Politicalization Of Reality:

The Politicalization of Reality Randy E. Smith, 2004-12 How do we know the information we are given is truthful How do we know the news media's information is not altered or certain facts left out or distorted to purposely mislead us How do we know that information is not disseminated in ways to promote a political viewpoint or some specifically approved social ideology or bias or enhance someone's financial gain or prestige With computers becoming faster and more sophisticated within a few decades they will be able to poll vast databases and respond to queries at near the speed of light Add to this advancements in virtual reality artificial intelligence synthesized speech speech recognition and visual recognition and you have machines that are frighteningly able to challenge human superiority Include in this a world environment where labor pressures from global competition is forcing businesses to frantically search for new ways to lower labor costs and the advanced machines become an attractive alternative Add political movements where social elitists and power brokers acting as gatekeepers work for the advancement of various social and political agendas and you have an environment where advanced machines can be purposely manipulated to blur the distinction between reality and illusion history and fiction A terrifying look into the future based on existing hard science yet a motivational tale of John Peters who due to an accident goes into a coma and is not expected to regain consciousness Placed away in the private and secluded Rest Harbor Rehabilitation and Extended Care Center one day some fifty four years Peters unexpectedly comes out of his coma and into a world that has vastly changed The story weaves motivational inspiration within the true meaning of love and unconditional relationships A story where John Peters struggles to overcome his new obstacles in a world where everyone he has known his family and friends have died and a world where what you think is real is actually constructed and what is constructed becomes the reality

Political Satire, Postmodern Reality, and the Trump Presidency

Mehnaaz Momen, 2018-12-11 This book attempts to grasp the recent paradigm shift in American politics through the lens of satire. It connects changes in the political and cultural landscape to corresponding shifts in the structure and organization of the media in order to shed light on the evolution of political satire on late night television. Satire is situated in its historical background to comprehend its movement away from the fringes of discourse to the very center of politics and the media. Beginning in the 1990s, certain trends such as technological advances, media consolidation, and the globalization of communications reinforced each other, paving the way for satire to claim a prized spot in the visual media, a tendency that only gained strength after September 11. While the Bush presidency presented itself as an apposite target for satirists, their stronghold on American television was made possible by a number of transitions in broader culture which are encapsulated in the shrinking space available for political engagement under neoliberalism. This largely underestimated development can be understood through the framework of postmodernism, which focuses on the relationship between language, power, and the presentation of reality. These trends and transitions reached a climax in the 2016 election, where President Trump was elected, embodying what can only be considered a significant turning point in American politics. The bigger narrative contains various subplots represented in the rise of the neoliberal economy, the acceptance of postmodernism as the dominant cultural code, and the role of the voyeur superseding that of the engaged citizen. It is only through understanding each of these pieces and connecting them that we can comprehend the current political transformation. The present moment may feel like a golden age of satire, and it may well be, but this book addresses the hardest questions about the realities behind such a claim: what can we conclude about when and how satire is effective? Judging by the history of this genre in its various incarnations, and how can the apolitical postmodern media landscape be reconciled with what the best of this genre has had to offer during times of political duress? Nationalism and the Politicization of History in the Former Yugoslavia Gorana

Ognjenovic, Jasna Jozelic, 2021-03-19 This book is very timely: the instrumentalization of history for political goals has become a pressing issue and worrisome feature of many polities to the point of challenging even the most consolidated democracies. Focusing on Yugoslavia's fragile successor states, the authors explore plurifold analytical levels, including local, regional, transnational, European, and global perspectives. The authors comprehensively demonstrate how politicizing history in the postwar and postcommunist societies of what was once Yugoslavia has prevented both reconciliation and democratization. Sabine Rutar, Leibniz Institute for East and Southeast European Studies, Germany. Ognjenovic and Jozelic focus here on the former Yugoslavia before and after its fragmentation to explore and evaluate the various uses of histories by nationalists, both those who promoted federal nationalism and those who peddle specific local nationalisms in successor states. The book deals specifically with the Western Balkans, but these developments have their parallels in many other parts of the world, and the book will be useful well beyond the region on which the study is based. Paul Mojzes, Professor Emeritus, Rosemont College, USA. The former Yugoslavia has become a battlefield for the Memory Wars, in spite of the wealth of judicially established facts.

and available evidences gathered about the atrocities in the region and various initiatives aimed at dealing with the past and efforts at transitional justice Focusing on three periods of Yugoslav history the Second World War socialist Yugoslavia and the Yugoslav wars of 1991 2001 the contributors show that despite these efforts to deal with the past sustainable peace and reconciliation across ethnic and religious groups remain a distant aim Marijana Toma Center for Cultural Decontamination Serbia This book analyzes how nationalists in the former Yugoslavia have politicized history to further their political agendas retaining and prolonging conflict among different cultural and religious groups and impeding the process of lasting reconciliation It explores how narratives have been mis used drawing on examples from all of the former Yugoslav republics With contributors from a range of disciplinary backgrounds it provides a vital assessment of how nationalists have attempted to re shape public collective memory and relativize facts Foucault, Politics, and Violence Johanna Oksala,2012 The politicization of ontology Foundational violence Dangerous animals The politics of gendered violence Political life The management of state violence The political ontology of neoliberalism Violence and neoliberal governmentality Terror and political spirituality **Appearance and Reality in Politics** W.
