for Value Creation Jürgen Hesselbach, Christoph Herrmann, 2011-03-18 After the IPS2 conferences in Cranfield and Linkoping in 2009 and 2010 the 3rd CIRP International Conference on Industrial Product Service Systems IPS2 2011 takes place in Braunschweig Germany IPS2 itself is defined as an integrated industrial product and service offering that delivers value in use The customers expect comprehensive solutions which are adapted to their individual needs IPS2 offers the possibility to stand out from competition and for long term customer loyalty Particularly in times of economic crisis it becomes apparent which producing companies understand to satisfy the needs and requirements of their customers Especially in this relatively new domain IPS2 it will be important to keep track of the whole context and to seek cooperation with other research fields and disciplines The 3rd CIRP International Conference on Industrial Product Service Systems IPS2 2011 serves as a platform for such collaborations and the discussion of new scientific ideas

Advances and Applications in Model-Driven Engineering Díaz, Vicente García, Lovelle, Juan Manuel Cueva, García-Bustelo, B. Cristina Pelayo, Martínez, Oscar Sanjuán, 2013-08-31 As organizations and research institutions continue to emphasize model driven engineering MDE as a first class approach in the software development process of complex systems the utilization of software in multiple domains and professional networks is becoming increasingly vital Advances and Applications in Model Driven Engineering explores this relatively new approach in software development that can increase the level of abstraction of development of tasks This publication covers the issues of bridging

the gaps between various disciplines within software engineering and computer science Professionals researchers and students will discover the most current tools and techniques available in the field to maximize efficiency of model driven software development Graph Transformations and Model-Driven Engineering Gregor Engels,Claus Lewerentz,Wilhelm Schäfer,Andy Schürr,Bernhard Westfechtel,2010-11-22 This festschrift volume published in honor of Manfred Nagl on the occasion of his 65th birthday contains 30 refereed contributions that cover graph transformations software architectures and reengineering embedded systems engineering and more **Effective Software Project Management** Robert K.
