The Senses in Performance Sally Banes,André Lepecki,2007 This ground breaking anthology is the first to be dedicated to assessing critically the role of the human sensorium in performance Senses in Performance presents a multifaceted approach to the methodological theoretical practical and historical challenges facing the scholar and the artist This volume examines the subtle actions of the human senses including taste touch smell and vision in all sorts of performances in Western and non Western traditions from ritual to theatre from dance to interactive architecture from performance art to historical opera With eighteen original essays brought together by an international ensemble of leading

scholars and artists including Richard Schechner and Philip Zarrilli This covers a variety of disciplinary fields from critical studies to performance studies from food studies to ethnography from drama to architecture Written in an accessible way this volume will appeal to scholars and non scholars interested in Performance Theatre Studies and Cultural Studies

Aristotle and the Animals Claudia Zatta,2022-03-30 With a novel approach to Aristotle s zoology this study looks at animals as creatures of nature physis and reveals a scientific discourse that in response to his predecessors exiles logos as reason and pursues the logos intrinsic to animals bodies empowering them to sense the world and live The volume explores Aristotle s conception of animals through a discussion of his ad hoc methodology to study them including the pertinence of the soul to such a study and the rise of zoology as a branch of natural philosophy For Aristotle animal life stems from the body in the space of existence and revolves around sensation which is entwined with pleasure pain and desire Lack of human reason is irrelevant to an understanding of the richness of animal life and cognition In sum the reader will acquire knowledge of the animal as such which lay at the core of Aristotle s agenda and required a study of its own separate from plants and the elements This book is intended for students of the history of science ancient biology and philosophy and all those who from different fields are interested in animal studies and the human animal relation
