Strategies A Rhetoric And Reader:

Strategies Charlene Tibbetts, A. M. Tibbetts, 1992 *Strategies* Charlene Tibbetts, Arnold Tibbetts, 1997 *Strategies* is the only rhetoric reader handbook to include a full discussion of the writer's stance and ethics in writing and reading. Providing practical solutions to students' writing problems, the text includes dozens of examples of student writing as well as many short pieces by professionals. Divided into three parts, the rhetoric provides writing strategies along with some suggestions about the ethics of composition; the reader supplies rhetorically organized examples of writers working at their craft; and the handbook gives standard advice on grammar and usage. *Strategies for Successful Writing* James A. Reinking, Robert Von Der Osten, 2006-12 Now in its eighth edition, the authors of *Strategies for Successful Writing: A Rhetoric Research Guide, Reader, and Handbook* have strived to achieve the same steadfast goals that have motivated them from the beginning: create a rhetorically organized writing guide that combines four books into one convenient and flexible teaching tool while offering students an exceptional value. By having at their disposal a comprehensive textbook that offers ample material for a full-year composition course, instructors teaching a one-term course can make various selections from Chapters 1-17 from whatever types of specialized writing suits the needs of their students and from the appropriate essays in the reader. As well, because the authors believe strongly that an effective composition textbook should address students directly, they've aimed for a conversational yet clear style that invites students into the book, lessens their apprehensions about writing, and provides a model for their own prose. This style complements the authors' strong student-based approach to writing, and together they help create a text that genuinely meets student needs. *Strategies for Successful Writing* James A. Reinking, Robert Von der Osten, 2016-01-05 For first-year courses in Composition Rhetoric, at every step of the writing process, *Strategies for Successful Writing: Concise Edition* supports students as they learn to compose in the rhetorical modes. Over 100 short examples demonstrate writing concepts and strategies so that they can recognize them more easily in the longer reading selections and apply them in their own compositions. Instruction is kept brief and to the point so that students spend more time writing and less time reading about writing. Also available with MyWritingLab™, MyWritingLab is an online homework tutorial and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts.
