Stray Bullets Vol 3 Other People:

Stray Bullets Volume 3: Other People David Lapham, 2015-09-01 Beth and Virginia have relocated to Los Angeles where things only appear more normal Take a ringside seat for these brutal tales of twisted emotion that will knock you to the mat and have you seeing stars Collects STRAY BULLETS 15 22 About the STRAY BULLETS series Beginning in the 1970s and carrying on into the 1990s Stray Bullets is a period crime drama with moments of humor and absurdity David Lapham's crime noir masterpiece follows the lost lives of people who are savagely torn apart by events beyond their control The innocent world of an imaginative little girl is shattered when she witnesses a brutal double murder An introverted young boy on the verge of manhood gets a lesson on just how far is too far when he falls for a needy woman who lives life in the fast lane Or party with a pair of low rent hoods who learn what is really important in life just when they shouldn't What makes Stray Bullets so brilliant is that it's a crime comic but it's also about growing up about being frustrated with your lot in life about the disappointment of settling down and the mundanity of suburban life Lapham shrewdly presents almost every type of criminal behavior imaginable in stories that can be both unflinchingly honest and heartbreakingly sympathetic The almost Altman-esque mix of characters provides seemingly endless pathos and drama and there is a level of realism to the violence that makes it truly startling If movies like *Ocean's 11* are about the sexy allure of the criminal worlds then Stray Bullets is about the desperation and rage of characters whose lives are ultimately defined by a series of bad choices *Graphic Novels* Michael Pawuk, David S. Serchay, 2017-05-30 Covering genres from adventure and fantasy to horror science fiction and superheroes this guide maps the vast terrain of graphic novels describing and organizing titles to help librarians balance their graphic novel collections and direct patrons to read-alikes New subgenres new authors new artists and new titles appear daily in the comic book and manga world joining thousands of existing titles some of which are very popular and well known to the enthusiastic readers of books in this genre How do you determine which graphic novels to purchase and which to recommend to teen and adult readers This updated guide is intended to help you start update or maintain a graphic novel collection and advise readers about the genre Containing mostly new information as compared to the previous edition the book covers iconic super hero comics and other classic and contemporary crime fighter based comics action and adventure comics including prehistoric heroic explorer and Far East adventure as well as Western adventure science fiction titles that encompass space opera fantasy aliens post-apocalyptic themes and comics with storylines revolving around computers robots and artificial intelligence There are also chapters dedicated to fantasy titles horror titles such as comics about vampires werewolves monsters ghosts and the occult crime and mystery titles regarding detectives police officers junior sleuths and true crime comics on contemporary life covering romance coming of age stories sports and social and political issues humorous titles and various nonfiction graphic novels *The people's edition of Thomas Carlyle's works. 37 vols.
