Technology And Humanism:

Humanism and Technology Anthony B. Pinn, 2016-11-23 This book interrogates the ways in which new technological advances impact the thought and practices of humanism Chapters investigate the social political and cultural implications of the creation and use of advanced forms of technology examining both defining benefits and potential dangers Contributors also discuss technology s relationship to and impact on the shifting definitions we hold for humankind International and multi disciplinary in nature and scope the volume presents an exploration of humanism and technology that is both racially diverse and gender sensitive With great depth and self awareness contributors offer suggestions for how humanists and humanist organizations might think about and relate to technology in a rapidly changing world More broadly the book offers a critical humanistic interrogation of the concept of progress especially as it relates to technological advancement

Technology--humanism Or Nihilism Gregory H. Davis, 1981 To find more information on Rowman Littlefield titles please visit us at www.rowmanlittlefield.com [Technology and Humanism](#) Dauer M J., 1970 **Technology and Humanism** William Graves Carleton, 1970 *Perspectives on Digital Humanism* Hannes Werthner, Erich Prem, Edward A. Lee, Carlo Ghezzi, 2021-11-23 This open access book aims to set an agenda for research and action in the field of Digital Humanism through short essays written by selected thinkers from a variety of disciplines including computer science philosophy education law economics history anthropology political science and sociology This initiative emerged from the Vienna Manifesto on Digital Humanism and the associated lecture series Digital Humanism deals with the complex relationships between people and machines in digital times It acknowledges the potential of information technology At the same time it points to societal threats such as privacy violations and ethical concerns around artificial intelligence automation and loss of jobs ongoing monopolization on the Web and sovereignty Digital Humanism aims to address these topics with a sense of urgency but with a constructive mindset The book argues for a Digital Humanism that analyses and most importantly influences the complex interplay of technology and humankind toward a better society and life while fully respecting universal human rights It is a call to shaping technologies in accordance with human values and needs

Technology Vs. Humanity Gerd Leonhard, 2016-09-06 Futurist Gerd Leonhard breaks new ground again by bringing together mankind s urge to upgrade and automate everything down to human biology itself with our timeless quest for freedom and happiness Before it s too late we must stop and ask the big questions How do we embrace technology without becoming it When it happens gradually then suddenly the machine era will create the greatest watershed in human life on Earth Technology vs Humanity is one of the last moral maps we ll get as humanity enters the Jurassic Park of Big Tech Artificial intelligence Cognitive computing The Singularity Digital obesity Printed food The Internet of Things The death of privacy The end of work as we know it and radical longevity The imminent clash between technology and humanity is already rushing towards us What moral values are you prepared to stand up for before being human alters its meaning forever Gerd

Leonhard is a new kind of futurist schooled in the humanities as much as in technology In his most provocative book to date he explores the exponential changes swamping our societies providing rich insights and deep wisdom for business leaders professionals and anyone with decisions to make in this new era If you take being human for granted press Reset now with this passionately argued call to create a genuinely braver new world

Digital Humanism Marta Bertolaso, Luca Capone, Carlos Rodríguez-Lluesma, 2022-06-28 This book provides an accessible and up to date overview of the foundational issues about both emerging constructive understandings of the digital era and still hidden and ignored aspects that could instead be dramatically relevant in the future in the process of a technological humanism The book offers relevant scientific and ethical questions bringing together professionals and researchers from different professional and disciplinary fields who have a shared interest in investigating operative aspects of technological digital and cultural transitions of humans and their capacity of building human societies The challenges are clear but there is a lack of an epistemological anthropological economic and social agenda that would enable a drive to such transitions towards a technological humanism This book provides an ideal platform for professionals and scholars not only providing tools for problem analysis but also indicating shared directions needs and objectives for a common goal the creation of new scenarios instead of the creation of fears and manipulated social imaginaria
