becomes all the more difficult The story is based around a hotel that offers its guests a breathtaking experience and a wonderful stay it doesn't encourage trouble at all but How can a sister tell her brother that the brother in law wasn't the man he thought he was How can a woman tell a man that she is in love with her that she is running from a tainted past And when someone turns up with psychotic tendencies it really doesn't bode well for their relationship They realise that they have to be honest if they are to have a future or risk being outed by others after all with the press coverage a few years ago it wouldn't take long to discover the truth Is honesty the best policy The present isn't without its problems at all but it's all about how you deal with those problems to get to that happy ending you so truly deserve See how these characters get through their trials and sufferings and how the outsiders cope with the abandonment of the ones that they love Ultimately we see what happens 2 years after all of this and what 2 years that was *The Mystery of the Chinese Box* Alma Benecke Sasse, 1939
