Textiles Through The Ages:

Textiles Through the Ages Ruth Barnes, Emma Dick, Jon Thompson, 2002 This booklet is intended to illustrate the history of textiles and weaving through the centuries by bringing together some key objects from the Ashmolean Museum's many collections. The oldest objects tell us about the early history of the fibres used by weavers and how different textile techniques developed and spread in the ancient world. The later objects, not arranged in any strict sequence, show how textiles were used in society to indicate rank and status and how they were transported from one culture to another, sometimes over great distances, to become both functional and luxury items or occasionally exotic articles of high fashion.

Crafting Textiles in the Digital Age Nithikul Nimkulrat, Faith Kane, Kerry Walton, 2016-09-08 In an era of increasingly available digital resources, many textile designers and makers find themselves at an interesting juncture between traditional craft processes and newer digital technologies. Highly specialized craft design practitioners may now elect to make use of digital processes in their work but often choose not to abandon craft skills fundamental to their practice and aim to balance the complex connection between craft and digital processes. The essays collected here consider this transition from the viewpoint of aesthetic opportunity arising in the textile designer's hands on experimentation with material and digital technologies available in the present. Craft provides the foundations for thinking within the design and production of textiles and as such may provide some clues in the transition to creative and thoughtful use of current and future digital technologies. Within the framework of current challenges relating to sustainable development, globalization, and economic constraints, it is important to interrogate and question how we might go about using established and emerging technologies in textiles in a positive manner.

Roots of Haiti's Vodou-Christian Faith R. Murray Thomas, 2014-06-19 This book traces the development of Haiti's combined Vodou-Christian religion from 1500 to the present and explains how this combination of distinct faiths coalesces in a coherent belief system. What are the historical reasons for the popularity of two contradictory worldviews in Haiti: Vodou and Catholicism? What elements of Vodou and Catholicism are alike and how are they drastically different? What is the connection between indigenous African religions and Vodou? And why has religion in Haiti evidenced an accelerating rate of change in recent decades? *Roots of Haiti's Vodou-Christian Faith: African and Catholic Origins* answers these questions and more in its examination of the highly unique and often misunderstood religious practices in Haiti. Reaching back half a millennium to the European conquest of the island of Haiti, author R. Murray Thomas inspects the origins and nature of these two competing and complementary religious traditions: the traditional African faiths brought by the slaves who were imported to Haiti to labor in the fields and mines and the Catholicism promoted, often violently, by Spanish and French colonial authorities. Following a historical background, the

subsequent chapters focus on the organization of Haitian religion spirits creation belief causes and ceremonies maxims and tales symbols and sacred objects sacred sites religious societies and the future of the Vodou Christian faith
