

The Japanese

Noel L. Leathers

The Japanese:

The Japanese Christopher Harding, 2022-04-28 Two thousand years of Japanese history told through interconnected portraits of twenty fascinating individuals Chris Harding's enormously enjoyable book distills Japan's long complex and fascinating history into the stories of twenty remarkable individuals These vivid and entertaining portraits take the reader from the earliest written accounts of Japan right through to the life of the current empress Masako We encounter shamans and warlords poets and revolutionaries scientists artists and adventurers each offering insights of their own into this extraordinary place For anyone new to Japan this book is the ideal introduction For anyone already deeply involved with it this is a book filled with surprises and pleasures

The Japanese Thomas W. Plant, 2013-07 **Japanese A Cultural Portrait** Robert S. Ozaki, 2012-02-14 In eleven informal essays *The Japanese a Cultural Portrait* explores the character of Japan and its people Once famous for its quaint charm Japan is now strikingly western in appearance Its rapid ascension to world prominence many Westerners forget that Japanese habits fears and values are rooted in centuries of feudal agrarianism This Japanese culture and history book reminds us that although the Japanese are capable of accepting enormous change they can also be resolutely determined to remain Japanese Their cultural makeup has not changed as rapidly as the nation's economic landscape To illustrate these points various topics are examined Japan's first encounters with the West Japanese philosophies of government law and ethics The way that modern institutions like the bureaucracy and the corporation rely on a strong sense of group affiliation *The Japanese A Cultural Portrait* provides absorbing insight into how modernization has been accomplished without loss of national identity

The Japanese Restaurant Iori Hamada, 2023-08-04 This book explores the growth and operations of the Japanese restaurant in Australia since the early 2000s from perspectives of both restaurant workers and consumers Through first hand testimonies collected from chefs restaurateurs gourmets and casual diners it demonstrates how Japanese restaurants act as cultural hubs connecting a diverse community of migrants Australian citizens and international tourists while also disseminating knowledge of Japanese culinary cultures The ethnographic evidence presented challenges the colonialist and essentialist understandings of the exotic and Japaneseness as the inferior other to the West In so doing the book highlights the complex manifestations of cross cultural desires translating practices and the performative racial ethnic mimesis of Japanese ethnicity Featuring critical investigation into the fixed notions of otherness race ethnicity and authenticity this book will be a valuable resource to students and scholars of Japanese society and culture particularly Japanese food culture

The Japanese Mind Robert C. Christopher, 1983 Somewhat a bit dated yet a this book is considered to be a classic The author brings three decades of travel research and understanding of this ancient tribe An entertaining and thorough introduction to all things Japanese Much has been written about Japanese management But this is the first book to explain the people the life and the culture of that fascinating nation

The Japanese in America Noel L. Leathers, 1974 A history of the Japanese in America their

backgrounds why they immigrated the prejudice encountered in peace and wartime and their contributions to their adopted nation Includes a special chapter on the Japanese influence in Hawaii

Japanese Language Haruhiko Kindaichi, 2011-12-20 This is a book about the structure history and evolution of the Japanese language The Japanese Language is a classic study of one of the world's most widely used but least understood languages Emphasizing the richness and complexity of Japanese as well as its limitations this fine book provides a lively discussion about the uniqueness of the Japanese language The relationship of Japanese to other languages is not well understood even by native speakers and Professor Kindaichi sets out to define it He concludes that Japanese is indeed only remotely related to other world languages although it shares many features in common with the languages of mainland Asia Japanese shares with those languages a rich and detailed vocabulary for natural phenomena and an unusually complex and accurate way of expressing social relationships Moreover its capability to absorb innovations from abroad easily matches or exceeds that of English or German The author after briefly discussing the unique isolation of the Japanese language moves on to consider the varieties of ordinary speech dialects jargon sex and role based distinctions and the difference between informal formal and literary language He then examines the structure of Japanese pronunciations its rhythm and accent The longest section of the book is devoted to the variety of the vocabulary what can and cannot be said in Japanese Readers who are just beginning their own study of Japanese will find this section especially fascinating for each point is backed by examples from literature and everyday speech Kindaichi also investigates the so called vagueness of Japanese and traces it to its source the unusual sentence order This book includes The highly debated origins of the Japanese language Dialects jargon sex and role based distinctions Differences between informal formal and literary language Structure rhythm and accent of pronunciation What can and cannot be said in Japanese
