

The Evolutionary Woman

Randy Thornhill, Steven W. Gangestad

The Evolutionary Woman:

The Evolutionary Biology of Human Female Sexuality Randy Thornhill, Steven W. Gangestad, 2008-09-25 Research conducted in the last fifteen years has placed in question many of the traditional conclusions scholars have formed about human female sexuality. Though conventional wisdom asserts that women's estrus has been evolutionarily lost, Randy Thornhill and Steven W. Gangestad assert that it is present though concealed. Women they propose therefore exhibit two sexualities each ovulatory cycle: estrus and sexuality outside of the estrous phase, extended sexuality that possess distinct functions.

The Evolutionary Woman Victoria Theresa Covell, 2004-09-01 There is no greater power on Earth which the 21st century woman may possess than living an idea whose time has come. The Evolutionary Woman in a 365 day book format exhorts women to take the next evolutionary step.

A Mind Of Her Own Anne Campbell, 2013-05-16 In the new edition of a successful book, Anne Campbell redresses the balance of evolutionary theory in favour of women. She examines how selection pressures have shaped the female mind over thousands of generations. Their emotions, friendship, competition, aggression, and mate choice.

The Evolution of Woman Eliza Burt Gamble, 1893

The Evolution of the diseases of women W. Balls-Headley, 1894

The Evolution of American Women's Studies A. Ginsberg, 2008-11-10 This book is comprised of reflections by diverse women's studies scholars focusing on the many ways in which the field has evolved from its first introduction in the University setting to the present day.

Women in Human Evolution Lori D. Hager, 1997 Women in Human Evolution challenges the traditional invisibility of women in human prehistory, rejecting the conventional relegation of women to the realm of reproduction in order to ask what else our female ancestors were doing. Raising key questions about both the existing archaeological evidence and the theoretical models which influence its interpretation, the contributors discuss the evolutionary models used to explain gender differences. They suggest reinterpretations of existing evidence to construct a model of human evolution which places women in a more central role. Shifting their focus to the nature of the discipline itself, they ask what impact women paleoanthropologists have had on the field's theoretical assumptions and what work remains to be done. The Evolution of Sexuality Todd K. Shackelford, Randal D. Hansen, 2014-09-12 Attraction, mating, reproduction: it is a given that as a species, human beings are concerned with sex. And whether the study compares sexual behaviors of men and women or considers the proportions between nature and nurture, most roads lead back to our distant ancestors and/or our fellow animals. The Evolution of Sexuality collects stimulating new empirical findings and theoretical concepts regarding both familiar themes and emerging areas of interest. Following earlier titles in this series, an interdisciplinary panel of contributors examines topics specific to the whys of male and female sex-related behavior, here ranging from biological bases for male same-sex attraction to the seemingly elusive purpose of the female orgasm. This vantage point between biology and psychology gives readers profound insights not just into human differences and

similarities but also why they continue to matter despite our vast understanding of culture and socialization And intriguing dispatches from the humanities review sexual themes in classic works of literature and explore the role of parent offspring conflict in the English Revolution of the seventeenth century Among the topics covered Sexual conflict and evolutionary psychology toward a unified framework Assortative mating caste and class The functional design and phylogeny of female sexuality Is oral sex a form of mate retention behavior Two behavioral hypotheses for the evolution of male homosexuality in humans Sperm competition and the evolution of human sexuality The Evolution of Sexuality will attract evolutionary scientists across a variety of disciplines Faculty graduate and undergraduate students and researchers interested in sexuality will find it a springboard for discussion debate and further study The Evolution of British General Practice, 1850-1948 Anne Digby,1999-06-24 This book focuses on a formative period in the development of modern general practice The foundations of present day health care in Britain were created in the century before the National Health Service of 1948 when medicine was transformed in its structure professional status economic organization and therapeutic power In the first full length study of general practice for these years Anne Digby deploys an impressive range of hitherto unused archival material and oral testimony to probe the character of general practitioners careers and practices and to assess their relationships with local communities a wider society and the state An evolutionary approach is adopted to explain the origins and nature of the many changes in medical practice and the lives of ordinary doctors The study also explores the gendered nature of medical practice as reflected in the experience of a golden band of women GPs and examines the hidden role of the doctors wife in the practice *The evolution of modesty, the phenomena of sexual periodicity, auto-erotism* Havelock Ellis,1910 women in indian politics lalit upadhyay,2023-10-12 *The Evolution of China's Poverty Alleviation and Development Policy (2001-2015)* Changsheng Zuo,2018-11-04 This book explains in simple language the change of perspective and the transition of the systems for poverty alleviation based on the fifteen year development of China s poverty alleviation policy Written by scholars from the International Poverty Reduction Center in China Peking University and the China Agricultural University who have been engaged in the field of poverty alleviation for many years the contributions combine views on China s poverty reduction policy with the authors personal experiences It is a valuable reference resource for researchers at the forefront of poverty alleviation and also appeals to anyone interested in poverty alleviation and China s poverty alleviation changes **Woman** Anthony Mario Ludovici,1923 **The Evolution of Marriage and of the Family** Charles Letourneau,1895 *The Evolution of Sex* Sir Patrick Geddes,John Arthur Thomson,1889 **The Evolution of Marriage** Charles Letourneau,1911 Private Property and the Goddess Paul Richards PhD,2023-06-19 *Private Property and the Goddess* explores how patriarchal private property arose in ancient times when men seized the land from woman centered cultures that grew up around the universal circle of women who nurtured humanity s children giving rise to language and culture Seizing the land required men to destroy the mother right basic to all Goddess cultures in which the

land descended through the female line The only way to end the mother right was through patriarchal monogamy that ended freedom for women and inaugurated the current era of misogyny oppression and slavery The story unfolds through the author s response to American Indian Movement leader Russell Means assertion that Europeans including Marxists had proved themselves unable to respect nature and the earth Richards chronicles his own journey growing up as a red diaper baby in Oakland California and a radical student in the 1960s From there he traveled through a decades long struggle which led to his discovery of the Goddess With his growing awareness of the creative female source of life he explores the hidden story of her suppression inside the ancient origin myths of patriarchy inside Greek mythology and the one God Bible Along the way he examines Where Marx and Engels Went Wrong Was there a time when our white ancestors lived in harmony with nature How far back would we have to go to find such a time if it ever existed at all How did we lose respect for the natural world and for women The answers to these questions opens the door to finding a way to change the course of history The Evolution of Love Emil Lucka,1922 **The Woman's Club** Olive Thorne Miller,1891 **The Woman's Medical Journal** ,1896
