The Manly Masquerade Valeria Finucci,2003-03-19 Analyzes how the body was constructed and politicized in early modern Italy by exploring literary discourses of the period plays novellas travel journals poems etc **Castration and Culture in the Middle Ages** Larissa Tracy,2013 Essays exploring medieval castration as reflected in archaeology law historical record and literary motifs Castration and castrati have always been facets of western culture from myth and legend to law and theology from eunuchs guarding harems to the seventeenth and eighteenth century castrati singers Metaphoric castration pervades a number of medieval literary genres particularly the Old French fabliaux exchanges of power predicated upon the exchange or absence of sexual desire signified by genitalia but the plain literal act of castration and its implications are often overlooked This collection explores this often taboo subject and its implications for cultural mores and custom in Western Europe seeking to demystify and demythologize castration Its subjects include archaeological studies of eunuchs historical accounts of castration in trials of combat the mutilation of political rivals in medieval Wales Anglo Saxon and Frisian legal and literary examples of castration as punishment castration as comedy in the Old French fabliaux the prohibition against genital mutilation in hagiography and early modern anxieties about punitive castration enacted on the Elizabethan stage The introduction reflects on these topics in the context of arguably the most well known victim of castration in the middle ages Abelard LARISSA TRACY is Associate Professor of Medieval Literature at Longwood University Contributors Larissa Tracy Kathryn Reusch Shaun Tougher Jack Collins Rolf H Bremmer Jr Jay Paul Gates Charlene M Eska Mary A Valante Anthony Adams Mary E Leech Jed Chandler Ellen Lorraine Friedrich Robert L A Clark Karin Sellberg Lena W nggren Moderating Masculinity in Early Modern Culture Todd W. Reeser,2006 Moderating Masculinity in Early Modern Culture proposes a definition of gender based on a ternary model in which moderation and masculinity are inextricably linked Like the Aristotelian virtue of moderation which requires the presence of excess a **Fashion and Masculinity in Renaissance Florence** Elizabeth Currie,2016-07-28 Dress became a testing ground for masculine ideals in Renaissance Italy With the establishment of the ducal regime in Florence in 1530 there was increasing debate about how to be a nobleman Was fashionable clothing a sign of magnificence or a source of mockery Was the graceful courtier virile or effeminate How could a man dress for court without bankrupting himself This book explores the whole story of clothing from the tailor s workshop to spectacular court festivities to show how the male nobility in one of Italy s main textile production centers used their appearances to project social sexual and professional identities Sixteenth century male fashion is often associated with swagger and ostentation but this book shows that Florentine clothing reflected manhood at a much deeper level communicating a very Italian spectrum of male virtues and vices from honor courage and restraint to luxury and excess Situating dress at the heart of identity formation Currie traces these codes through an array of sources including unpublished archival records surviving garments portraiture poetry and personal correspondence between the Medici and

their courtiers Addressing important themes such as gender politics and consumption Fashion and Masculinity in Renaissance Florence sheds fresh light on the sartorial culture of the Florentine court and Italy as a whole The Making and Mirroring of Masculine Subjectivities Susan Mooney,2022-08-09 This book shows how diverse critical modern world narratives in prose fiction and film emphasize masculine subjectivities through affects and ethics Highlighting diverse affects and mental states in subjective voices and modes modern narratives reveal men as feeling intersubjective beings and not as detached masters of master narratives Modern novels and films suggest that masculine subjectivities originate paradoxically from a combination of copying and negation surplus and lack sameness and alterity among fathers and sons siblings and others In this comparative study of more than 30 diverse world narratives Mooney deftly uses psychoanalytic thought narrative theories of first and third person narrators and Levinasian and feminist ethics of care creativity honor and proximity We gain a nuanced picture of diverse postpaternal postgentlemen emerging out of older character structures of the knight and gentleman The Gendering of Men, 1600-1750 Thomas Alan King,2004 Taking on nothing less than the formation of modern genders and sexualities Thomas A King develops a history of the political and performative struggles that produced both normative and queer masculinities in the seventeenth and eighteenth centuries The result is a major contribution to gender studies gay studies and theater and performance history The Gendering of Men 1600 1750 traces the transition from a society based on alliance which had subordinated all men women and boys to higher ranked males to one founded in sexuality through which men have embodied their claims to personal and political privacy King proposes that the male body is a performative production marking men s resistance to their subjection within patriarchy and sovereignty Emphasizing that categories of gender must come under historical analysis The Gendering of Men explores men s participation in an ongoing struggle for access to a universal manliness transcending other biological and social differentials Pub desc v 1 **Gender and Early Modern Constructions of Childhood** Naomi J.
