The Map Of Leaving:

L'Amérique Méridionale: The Map That Shaped Brazil in the 18th Century Junia Ferreira Furtado,2024-09-23 This book explores how the origins of Brazil's modern borders can be traced to the cartography of the Americas produced by the eighteenth century French cartographer J B B d Anville It argues that this map reflects the geopolitical policies of the Portuguese diplomat D Luis da Cunha who was involved in Portugal's negotiations with the Spanish to formally establish Brazil's frontiers and highlights how and why these policies were adopted in the Treaty of Madrid in 1750

Lost Maps of the Caliphs Yossef Rapoport,Emilie Savage-Smith,2018-12-11 About a millennium ago in Cairo an unknown author completed a large and richly illustrated book In the course of thirty five chapters this book guided the reader on a journey from the outermost cosmos and planets to Earth and its lands islands features and inhabitants This treatise known as The Book of Curiosities was unknown to modern scholars until a remarkable manuscript copy surfaced in 2000 Lost Maps of the Caliphs provides the first general overview of The Book of Curiosities and the unique insight it offers into medieval Islamic thought Opening with an account of the remarkable discovery of the manuscript and its purchase by the Bodleian Library the authors use The Book of Curiosities to re evaluate the development of astrology geography and cartography in the first four centuries of Islam Their account assesses the transmission of Late Antique geography to the Islamic world unearths the logic behind abstract maritime diagrams and considers the palaces and walls that dominate medieval Islamic plans of towns and ports Early astronomical maps and drawings demonstrate the medieval understanding of the structure of the cosmos and illustrate the pervasive assumption that almost any visible celestial event had an effect upon life on Earth Lost Maps of the Caliphs also reconsiders the history of global communication networks at the turn of the previous millennium It shows the Fatimid Empire and its capital Cairo as a global maritime power with tentacles spanning from the eastern Mediterranean to the Indus Valley and the East African coast As Lost Maps of the Caliphs makes clear not only is The Book of Curiosities one of the greatest achievements of medieval mapmaking it is also a remarkable contribution to the story of Islamic civilization that opens an unexpected window to the medieval Islamic view of the world

Maps Kalhana,1900 Terrain of Memory Kirsten Emiko McAllister,2011-01-01 For communities who have been the target of political violence the after effects can haunt what remains of their families their communities and the societies in which they live Terrain of Memory tells the story of the Japanese Canadian elders who built a memorial in 1994 to mark a village in an isolated mountainous valley in British Columbia with their history of internment It explores memory as a powerful collective cultural practice following elders and locals as they worked together to transform a site of political violence into a space for remembrance They transformed a valley where once over 7 000 women men and children were interned into a pilgrimage site where Japanese Canadians can mourn and also pay their respects to the wartime generation This is a compelling story about how collectively excavating painful memories can contribute to building relations across social and intergenerational divides
