TLS WHAT DO WE MEAN WHEN WE TALK ABOUT ATMOSPHERE Some travellers are driven by the need to scale a natural wonder to see a city's sights or a place of history Others like Alice Maddicott travel in search of a particular scene feeling or atmosphere often inspired by music literature and art Taking us deep into our emotional and creative responses to place this extraordinary book explores the author's own relentless travelling From the heat of Sicily to the mountains of Japan this is a uniquely lyrical approach to psycho geography As Maddicott explores this relationship with landscape that is the very essence of human creativity she transports readers to seventeenth century salons of Paris and the crumbling balconies of modern Tbilisi in the company of writers and artists such as Italo Calvino LM Montgomery PJ Harvey and Ana Mendieta Tender Maps is a beautifully evocative book of travel culture and imagination

The Curious Map Book Ashley Baynton-Williams, 2015-10-20 Since that ancient day when the first human drew a line connecting Point A to Point B maps have been understood as one of the most essential tools of communication Despite differences in language appearance or culture maps are universal touchstones in human civilization Over the centuries maps have served many varied purposes far from mere guides for reaching a destination they are unique artistic forms aides in planning commercial routes literary devices for illuminating a story Accuracy or inaccuracy of maps has been the make or break factor in countless military battles throughout history They have graced the walls of homes bringing prestige and elegance to their owners They track the mountains oceans and stars of our existence Maps help us make sense of our worlds both real and imaginary they bring order to the seeming chaos of our surroundings With The Curious Map Book Ashley Baynton Williams gathers an amazing chronologically ordered variety of cartographic gems mainly from the vast collection of the British Library He has unearthed a wide array of the whimsical and fantastic from maps of board games to political ones maps of the Holy Land to maps of the human soul In his illuminating introduction Baynton Williams also identifies and expounds upon key themes of map production peculiar styles and the commerce and collection of unique maps This incredible volume offers a wealth of gorgeous illustrations for anyone who is cartographically curious
