Arguably, a human being's behavior and development is a lifelong process that involves psychological and social changes, which are experience during the lifespan of an individual. This report shall set out to compare and contrast two developmental theories. To this end, an evaluation of the strengths, weaknesses, likes and dislikes of each theory shall be provided.

incidentally to organizational careers within work organizations In this pioneering sourcebook now considered a classic Glaser gathered from the literature of occupational sociology those studies that bear most directly on organizational careers His objective was to provide the first survey of the substantial body of data on the subject and to place this data in a framework that illustrates its significance for the development of theory In an extensive introduction the editor explains the several purposes of the book and describes in detail the process of comparative analysis through which sociological theory on organizational careers can be generated Organized around general themes such as recruitment motivation commitment mobility and succession the writings of prominent sociologists including Riesman Caplow Hughes Becker and Wilensky form the content of the book and systematically cover every important facet of organizational careers The editor's introductions to each section of the book alert the reader to the general phenomena such as processes conditions categories hypotheses and properties that crosscut and are generally relevant to all organizational careers and are therefore the raw material of theory These introductions also suggest questions and problems for further analysis and research This book as a whole stands as a demonstration of the contributors method of how the sociologist working from the data of research can generate grounded formal theory on this or any social phenomenon This book also presents a vital body of data on organizational careers and a guide to further research that will be of great use both to occupational sociologists and to all those involved in the study of organizations
