These Lethal Inexorable Laws:

These Lethal, Inexorable Laws Arun Shourie, 1991 *These Lethal, Inexorable Laws* Arun Shourie, 1992 **Discourses on Corruption** Kalpana Kannabiran, Hollstein, Bettina, Florian F Hoffmann, 2021-11-01 Corruption often described as all that is rotten in the modern society has become an increasingly dominant theme in contemporary political discourse one that is related to specific practices concepts and evaluations that vary across regions cultures spheres of action and disciplines This volume through case studies investigates corruption in the Global South especially India and Brazil and West especially Switzerland to gain a more nuanced view of the phenomenon The chapters in this volume are organized into two loosely structured and overlapping parts the first part consisting of Chapters 2 5 covers conceptual questions related to corruption discourses from different perspectives such as economic ethics social capital theory and literature the second part consisting of Chapters 6 11 details the complexity and diversity of corruption practices within and between countries and regions providing different interpretative frameworks which in turn flow into discourses on corruption **The Routledge Encyclopedia of Indian Writing in English** Manju Jaidka, Tej N. Dhar, 2023-09-29 Today Indian writing in English is a field of study that cannot be overlooked Whereas at the turn of the 20th century writers from India who chose to write in English were either unheeded or underrated with time the literary world has been forced to recognize and accept their contribution to the corpus of world literatures in English Showcasing the burgeoning field of Indian English writing this encyclopedia documents the poets novelists essayists and dramatists of Indian origin since the pre independence era and their dedicated works Written by internationally recognized scholars this comprehensive reference book explores the history and development of Indian writers their major contributions and the critical reception accorded to them The Routledge Encyclopedia of Indian Writing in English will be a valuable resource to students teachers and academics navigating the vast area of contemporary world literature **Anita Gets Bail** Arun Shourie, 2018-05-01 The judiciary has been the one sturdy dyke that has saved us from the excesses of rulers But recent events remind us of the cracks that have formed the quality of individuals apart even the institutional arrangements that had been put in place to preserve the purity and independence of the institution the collegium conventions governing the way cases are to be assigned among judges have frayed These cracks provide a dangerous opportunity to political rulers to suborn this institution also Through actual cases and judgments of subordinate courts High Courts the Supreme Court Arun Shourie enables us to see how frail and vulnerable this last pillar standing has become A judge who by a brazen manipulation of facts lets a prominent politician off Events and a judgment that let the convicted choose the prosecutor who is to conduct the case against them Courts that turn a blind eye to life and death reforms even as they preoccupy themselves with trivia Courts that deliver ringing judgments and then do not care to look if their directions are being implemented Courts that disregard their own judgments on penalizing persons for perjury for dragging out cases Courts that do not think through the consequences even the predictable consequences of their

judgments Judges who prevaricate who look the other way when some of their own fraternity come under a cloud A judge who is manifestly unbalanced judges whose knowledge of the most elementary facts of science is laughable a judge whose prose even the Supreme Court is unable to comprehend all of them continue to hand down rulings that affect the fortunes and lives of thousands Judges who disregard well settled principles to such an extent that their colleagues are compelled to make their grave misgivings public And the non bailable warrants that are issued for the arrest of Anita Arun Shourie s ailing wife for evading summons that were never served summons that were ostensibly issued for their having built a house that was never built on a plot they did not own Through the meticulous examination that is a hallmark of his writing Arun Shourie leads us through judgments and instances some hilarious so many infuriating and points to things that each of us judges lawyers laypersons like us can do to retrieve this most vital of institutions

Maryland Law Reporter ,1872 And Was Made Man Robin Le Poidevin,2022-12-30 The doctrine of the incarnation that God became human in Christ is one of the most astonishing propositions ever advanced and it is at the heart of the Christian faith It is also a paradoxical one in that it immediately faces the objection that since the properties of humanity and divinity are incompatible nothing can be both divine and human Can the doctrine be defended against the charge of incoherence This is the central question of this book It is a question which has received intense attention in recent philosophy of religion but the distinctively novel features of this book are twofold First it brings a range of debates in contemporary metaphysics in particular debates over identity persistence composition embodiment essence mind space time and necessity to bear on the central question Second it defends a particularly wide ranging version of the view of the incarnation known as the kenotic model on which God the Son gave up in an act of kenosis or self emptying certain divine characteristics in order to become human There are certain properties traditionally ascribed to God such as being independent of time being disembodied existing of necessity and being the ground of goodness which it apparently makes no sense to suppose could be given up they are it seems held by God timelessly or eternally This book proposes a development of the kenotic model in which kenosis could coherently be thought to apply even to these apparently unchangeable aspects of the divine

The Publishers' Trade List Annual ,1998 **Falling Over Backwards** Arun Shourie,2006 How is it that what was explicitly forbidden by the Constitution classification based on cast has become the rule How is it that what were enabling provision have become mandatory minima Where does the figure 50 per cent come from How is that in practice it is exceeded blatantly Are the benefits not being hogged by a few the better off among these castes Has the creamy layer been actually hived off How is

that what were begun as reservations in promotion also How did this become a right to accelerated promotions How did that become a right accelerated promotions with consequential seniority How did that become a right to have the prescribed standards diluted to the point of being waived altogether Even in educational institutions Is this any way to become a knowledge super power As there has been no caste wise enumeration and tabulation since the 1931 Census where does this mythical figure OBCs are 52 per cent of the population come from And what did the 1931 Census itself say about its cast wise figures *The Lutheran Witness*, 1930 *Harvesting Our Souls* Arun Shourie, 2000 Will the Iron Fence Save a Tree Hollowed by Termites? Arun Shourie, 2005 Should we put our trust in Musharraf s naya dil Or should we look at the nature of the State and society in Pakistan What is poured into children in madrassas In non religious schools in Pakistan What is the relationship of the Islam pasand parties terrorist groups and the ruling establishment in Pakistan With a wealth of evidence Arun Shourie spells out imperatives for defence beyond the military A must for our times
