One Nation Under Stress Dana Becker, 2013-02-11 Stress Everyone is talking about it suffering from it trying desperately to manage it now more than ever From 1970 to 1980 2 326 academic articles appeared with the word stress in the title In the decade between 2000 and 2010 that number jumped to 21 750 Has life become ten times more stressful or is it the stress concept itself that has grown exponentially over the past 40 years In One Nation Under Stress Dana Becker argues that our national infatuation with the therapeutic culture has created a middle class moral imperative to manage the tensions of daily life by turning inward ignoring the social and political realities that underlie those tensions
