Munisawmy Mudaliar,1909 **Queer Ancient Ways** Zairong Xiang,2018 *Queer Ancient Ways* advocates a profound unlearning of colonial modern categories as a pathway to the discovery of new forms and theories of queerness in the most ancient of sources In this radically unconventional work Zairong Xiang investigates scholarly receptions of mythological figures in Babylonian and Nahua creation myths exposing the ways they have consistently been gendered as feminine in a manner that

is not supported and in some cases actively discouraged by the texts themselves An exercise in decolonial learning to learn from non Western and non modern cosmologies Xiang s work uncovers a rich queer imaginary that had been all but lost to modern thought in the process critically revealing the operations of modern colonial systems of gender sexuality and knowledge formation that have functioned from the Conquista de America in the sixteenth century to the present to keep these systems in obscurity At the heart of Xiang s argument is an account of the way the unfounded feminization of figures such as the Babylonian co creatrix Tiamat and the Nahua creator figures Tlaltecuhltli and Coatlicue is complicit with their monstification This complicity tells us less about the mythologies themselves than about the dualistic system of gender and sexuality within which they have been studied underpinned by a consistent tendency in modern colonial thought to insist on unbridgeable categorical differences By contextualizing these deities in their respective mythological linguistic and cultural environments through a unique combination of methodologies and critical traditions in English Spanish French Chinese and Nahuatl Xiang departs from the over reliance of much contemporary queer theory on European post modern thought Much more than a queering of the non Western and non modern Queer Ancient Ways thus constitutes a decolonial and transdisciplinary engagement with ancient cosmologies and ways of thought which are in the process themselves revealed as theoretical sources of and for the queer imagination

Ramos, Tara Daly, 2016-09-21 Decolonial Approaches to Latin American Literatures and Cultures engages and problematizes concepts such as decolonial and coloniality to question methodologies in literary and cultural scholarship While the eleven contributions produce diverse approaches to literary and cultural texts ranging from Pre Columbian to contemporary works there is a collective questioning of the very idea of Latin America what Latin America contains or leaves out and the various practices and locations constituting Latinamericanism This transdisciplinary study aims to open an evolving corpus of decolonial scholarship providing a unique entry point into the literature and material culture produced from precolonial to contemporary times

Gilhodes, 1922 **Troy and Its Remains** Heinrich Schliemann, 2020-01-09 In Troy and Its Remains Heinrich Schliemann presents a meticulous account of his archaeological excavations at the site of ancient Troy challenging historical narratives by providing tangible evidence of the legendary city depicted in Homer s epics Blending an engaging travelogue with scholarly observations Schliemann s literary style captures the fervor and excitement of discovering material remnants of a past long considered mythological The work contributes significantly to the 19th century discourse on archaeology and the historical reliability of classical literature positioning itself amidst the burgeoning interest in ancient civilizations as a response to the Romantic period s fascination with heroism and myth Heinrich Schliemann often deemed the father of modern archaeology was driven by a relentless quest to substantiate the historical accuracy of the Iliad and Odyssey rooted in his childhood passions and aspirations His diverse career from a successful merchant to a self taught

archaeologist combined with his profound love for the Homeric texts inspired him to pursue tangible proof of Troy's existence thus intertwining his personal journey with the scholarly community's debates during his time.
