

# Evolutionary Creationism

- Accepts cosmology, geology and evolution.
- Accepts common descent as both a scientific and a theological hypothesis.
- Evolution was a purely natural, undirected process.
- God is the designer, who, in his incredible wisdom and foreknowledge, set the universe and evolution in motion.
- Hypothesizes a God-of-no-gaps.
- If God had to intervene in the free process of evolution, that would be to lessen God—a God who had to correct his mistakes.

## **The Evolutionary God:**

The Evolution of God Robert Wright, 2009-05-20 In this sweeping narrative that takes us from the Stone Age to the Information Age Robert Wright unveils an astonishing discovery there is a hidden pattern that the great monotheistic faiths have followed as they have evolved Through the prisms of archaeology theology and evolutionary psychology Wright's findings overturn basic assumptions about Judaism Christianity and Islam and are sure to cause controversy He explains why spirituality has a role today and why science contrary to conventional wisdom affirms the validity of the religious quest And this previously unrecognized evolutionary logic points not toward continued religious extremism but future harmony Nearly a decade in the making *The Evolution of God* is a breathtaking re examination of the past and a visionary look forward

**The Evolutionary God** Robert Dewitt Ivey, 2003-04-01 This short autobiographical book gives a broad new look at the paradoxical wholeness of the ecosystem and the universe The author tells why believing in God as a natural principle instead of believing that he is a supernatural being provides a meaning to suffering that is based on reality instead of make believe

**THE EVOLUTION OF THE GOD ILLUSION** Ir. Jim K K Wong,2012-06-16 As one may have read Cicero in The Nature Of The Gods ancient people were vivid observers of the sky and the celestial bodies because of their livelihood they were mostly engaged in agriculture and animal husbandry The cycles of nature and seasons were the most important factors affecting farming civilizations The brilliant stars Jupiter Saturn Venus and the zodiac were also objects of great interest These heavenly bodies were regarded as deities even by learned philosophers Cicero and Socrates had a field day demolishing these strongly held prevailing ideas One popular god illusion of the West and Middle East began with patriarch Abraham who was an astronomer from Mesopotamia He studied Jupiter avidly and could predict its behavior which he used it to his advantage in his migration to the Fertile Crescent and in his encounters with hostile inhabitants Abraham had the delusion that Jupiter Yahweh was a deity who could be depended to assist him in troubled times The Yahweh Delusion was passed down from Abraham to son Isaac and grandson Jacob Jacob s 12 sons migrated to Egypt multiplied and eventually became slaves Moses a pariah Egyptian prince became the rebel leader of the Hebrew slaves when he discovered his roots At the opportune moment c 1450 BCE Venus erupted from unstable fast spinning Red Giant Jupiter and shot into the inner solar system like a billiard ball along a highly elliptical orbit It had several close encounters with Earth Moon and Mars and created stunning phenomena or miracles such as the much exaggerated Ten Plagues parting of the Red Sea the rain of manna apparent stopping of the Earth s rotation and even the destruction of the mighty army of Sennacherib near Jerusalem Moses and his successors apparently knew and could predict more or less unusual celestial phenomena and attributed them to a tribal deity Yahweh who was connected with their deliverance and survival Every successful prediction or expectation resulted in augmenting the god illusion The god illusion evolved through stupendous sagas cross fertilized by neighbors and reformers roughly from 1500 BCE to 500 BCE However the Hebrews had a confused idea of this savior deity and its feminine aspects such as the Celestial Cow giving manna milk In the evolutionary process Yahwist patriarchs literally wrote off the influential Goddess and made Yahweh a lone male god of Judaism and Christianity The underlying motive developing this god illusion is Moses and Israel s covetousness of the fertile Holy Land Moses needed a justification to commit genocide to rob loot destroy and drive out people inhabiting the land of milk and honey The justification is a tribal god of Israelites who gives mandate to his chosen race to rob and steal the Promise Land from evil worshippers of false gods The underlying theory for this god illusion evolution hypothesis is based on Immanuel Velikovsky s bestseller of the 1950s Worlds in Collision This hypothesis met fierce opposition in academia and Establishment Science The AAAS Symposium 1974 was convened to address the serious challenge Here the author produces abstracts from various experts in various disciplines of sciences and arts to counter objections to the underlying theory The god illusion presented here is my own interpretation of the

psychological impacts and aspects of these astounding celestial phenomena I am using appropriate knowledge in several disciplines to support my thesis such as radiation chemistry upper atmosphere chemistry and behavioral science My training as a stock analyst to read the underlying environment enables me to read in between the lines to speculate and connect the gaps and dots together and present a satisfying version of the god illusion [Can You Believe in God and Evolution?](#) Dr. Ted Peters, Martinez Hewlett, 2010-10-01 Named a 2007 Book of Distinction by the Sir John Templeton Foundation The special edition of this award winning book celebrates the 200th birthday of Charles Darwin Since even before the publication of Darwin s seminal work on evolution science and religion have often been at odds Even today culture wars continue to rage How can I be faithful to God and fully enjoy the progress of science Who is Charles Darwin and what did he actually say Can you believe in God and evolution Does teaching evolution corrupt our social values How can you connect science and faith Can science be a Christian vocation So how can we interpret the creation story in the Bible Authors Ted Peters and Martinez Hewlett give a balanced discussion of the impact of evolution to help church leaders understand the values at stake They make the convincing case that Christians can connect their faith in God with a scientific understanding of evolution with integrity [The Evolution and Rise of God's Kingdom and Humanity](#) Richard A Damron, 2020-09-12 A Short Paper of nonfiction which briefly describes the Evolution of Humanity and God s Kingdom It emphasizes the importance and or necessity of Science It introduces the Cycles of God to help explain the constant renewal of Life and God s Kingdom It identifies consequences of not obeying all of God s Laws [The Bearing of the Evolutionary Theory on the Conception of God](#) Ukichi Kawaguchi, 1916 **Thank God for Evolution** Michael Dowd, 2008-06-19 Few issues have revealed deeper divisions in our society than the debate between creationism and evolution between religion and science Yet from the fray Reverend Michael Dowd has emerged as a reconciler finding faith strengthened by the power of reason With evidence from contemporary astrophysics geology biology anthropology and evolutionary psychology Thank God for Evolution lays out a compelling argument for how religion and science can be mutually enriching forces in our lives Praised by Nobel laureates in the scientific community and religious leaders alike Thank God for Evolution will expand the horizon of what is possible for self for relationships and for our world **The Evolutionary Lens of Teilhard de Chardin** Matt Landry, 2026-01-29 Nietzsche suggests that peering into the abyss is a frightening exercise but a clear eyed grasp of the near infinite universe can yield not only a better understanding of it but one in which we ourselves can be seen as more relevant to it The priest and scientist Pierre Teilhard de Chardin offers a lens that enables such a vision and in doing so permits us to see how the great human enterprises of science and religion can harmonize into a grand vision of reality [The Bearing of the Evolutionary Theory on the Conception of God a Study in Contemporary Interpretations of God in Terms of the Doctrine of Evolution](#) Ukichi Kawaguchi, 2018-03-14 Excerpt from The Bearing of the Evolutionary Theory on the Conception of God a Study in Contemporary Interpretations of God in Terms of the Doctrine of Evolution A Dissertation Submitted to the Faculty

*The Evolution of a Creationist* Jobe Martin, Jobe Ralph Martin, 2004 In his book *The Evolution of a Creationist* Dr Jobe Martin chronicles his personal journey from traditional scientist to creationist He was a traditional evolutionist but it was his medical and scientific training that would go through an evolution when he began to study animals that challenged the scientific assumptions of his education Dr Martin has been exploring the evolution vs creation debate for the past 20 years His findings have been fascinating students around the world as he lectures on these remarkable animal designs that cannot be explained by traditional evolution

*The Evolution of the Idea of God, An Inquiry Into the Origins of Religions* Grant Allen, 2021-07-03 Originally published in 1897 *The Evolution of the Idea of God* is a study of humans belief in God from primitive tribal religions to what Allen considered the more advanced Christian view The main question explored here is How did we arrive at our knowledge of God Rather than trying to prove or disprove any claims about the divine Allen s method simply traces the psychological processes that led humans to religious belief and further from a belief in polytheism to monotheism Students of religion mythology and human psychology will find this an intriguing work Goodreads

[Evolutionary Creation](#) Denis O. Lamoureux, 2008-06-15 In this provocative book evolutionist and evangelical Christian Denis O Lamoureux proposes an approach to origins that moves beyond the evolution versus creation debate Arguing for an intimate relationship between the Book of God s Words and the Book of God s Works he presents evolutionary creation a position that asserts that the Father Son and Holy Spirit created the universe and life through an ordained and sustained evolutionary process This view of origins affirms intelligent design and the belief that beauty complexity and functionality in nature reflect the mind of God Lamoureux also challenges the popular Christian assumption that the Holy Spirit revealed scientific and historical facts in

the opening chapters of the Bible He contends that Scripture features an ancient understanding of origins that functions as a vessel to deliver inerrant and infallible messages of faith Lamoureux shares his personal story and his struggle in coming to terms with evolution and Christianity Like many he lost his boyhood faith at university in classes on evolutionary biology After graduation he experienced a born again conversion and then embraced belief in a literal six day creation Graduate school training at the doctoral level in both theology and biology led him to the conclusion that God created the world through evolution Lamoureux closes with the two most important issues in the origins controversy the pastoral and pedagogical implications How should churches approach this volatile topic And what should Christians teach their children about origins

**Evolution, Chance, and God** Brendan Sweetman, 2015-10-22 Evolution Chance and God looks at the relationship between religion and evolution from a philosophical perspective This relationship is fascinating complex and often very controversial involving myriad issues that are difficult to keep separate from each other Evolution Chance and God introduces the reader to the main themes of this debate and to the theory of evolution while arguing for a particular viewpoint namely that evolution and religion are compatible and that contrary to the views of some influential thinkers there is no chance operating in the theory of evolution a conclusion that has great significance for teleology One of the main aims of this book is not simply to critique one influential contemporary view that evolution and religion are incompatible but to explore specific ways of how we might understand their compatibility as well as the implications of evolution for religious belief This involves an exploration of how and why God might have created by means of evolution and what the consequences in particular are for the status of human beings in creation and for issues such as free will the objectivity of morality and the problem of evil By probing how the theory of evolution and religion could be reconciled Sweetman says that we can address more deeply key foundational questions concerning chance design suffering and morality and God's way of acting in and through creation
