The Ethics Of Authenticity:

The Ethics of Authenticity Charles Taylor, 2018-08-06 Charles Taylor is a philosopher of broad reach and many talents but his most striking talent is a gift for interpreting different traditions cultures and philosophies to one another This book is full of good things New York Times Book Review Everywhere we hear talk of decline of a world that was better once maybe fifty years ago maybe centuries ago but certainly before modernity drew us along its dubious path While some lament the slide of Western culture into relativism and nihilism and others celebrate the trend as a liberating sort of progress Charles Taylor calls on us to face the moral and political crises of our time and to make the most of modernity s challenges The great merit of Taylor s brief non technical powerful book is the vigor with which he restates the point which Hegel and later Dewey urged against Rousseau and Kant that we are only individuals in so far as we are social Being authentic being faithful to ourselves is being faithful to something which was produced in collaboration with a lot of other people The core of Taylor s argument is a vigorous and entirely successful criticism of two intertwined bad ideas that you are wonderful just because you are you and that respect for difference requires you to respect every human being and every human culture no matter how vicious or stupid Richard Rorty London Review of Books

instrumental reason and the subsequent loss of freedom For all his criticisms Taylor also wants to retrieve the ethical theme of authenticity seen in terms of people being true to themselves but with a restored sense of life being dialogic in character and lived against the cultural framework of horizons of intelligibility Written for those coming to the study of Charles Taylor s *The Ethics of Authenticity* 1991 Dialogic Life provides an introduction and guide to Taylor s thought and a commentary and review of the text The opening chapter reviews Taylor s life and the development of his thought and subsequent chapters 2-11 provide a commentary and guide to the ten sections of *The Ethics of Authenticity* The final two chapters discuss issues arising and offer conclusions on Taylor s work to retrieve and restore the ethical ideal of authenticity Stephen Loxton retired from a 40 year teaching career in 2019 He now devotes his time to independent research and writing He worked at a range of schools in the UK including Millfield The Godolphin School and Sherborne School for Girls where he ran a highly successful I B Philosophy course He has written about twenty school timetables run Philosophy and Religious Studies Departments been a Deputy Headmaster an ISI Inspector and chaired the Salisbury Local Research Ethics Committee in the 1990s approving the first clinical trials of the drug Sildenafil later better known as Viagra Dialogic Life is his sixth book Previous books include three guides to topics for A level Philosophy of Religion on Plato and Aristotle Conscience and Religious Language Words and Deeds 2018 revised edition in 2020 is an introduction to the thought of Ludwig Wittgenstein and Nietzsche and the Old Flame 2021 is a study of Nietzsche s *On the Genealogy of Morals* In preparation is *Proper Guardians* an introduction and guide to J S Mill s *On Liberty*

Forget Me Not: The Neuroethical Case Against Memory Manipulation Peter A. DePergola II, 2018-02-12 The first philosophical monograph on the ethics of memory manipulation *MM Forget Me Not: The Neuroethical Case Against Memory Manipulation* contends that any attempt to directly and intentionally erase episodic memories poses a grave threat to the human condition that cannot be justified within a normative moral calculus Grounding its thesis in four evidential effects namely i MM

disintegrates autobiographical memory ii the disintegration of autobiographical memory degenerates emotional rationality iii the degeneration of emotional rationality decays narrative identity and iv the decay of narrative identity disables one to seek identify and act on the good DePergola argues that MM cannot be justified as a morally licit practice insofar as it disables one to seek identify and act on the good A landmark achievement in the field of neuroethics this book is a welcome addition to both the scholarly and professional community in philosophical and clinical bioethics

Can a biopic truly capture the essence of its subject or does it inherently distort reality Through a self reflexive case study of a screenplay about British boxer Randolph Turpin this book seeks to answer these pressing questions It examines the process of transforming extensive research into a compelling narrative offering insights into the delicate balance between truth and fiction By bridging the gap between theory and practice this work provides a fresh perspective on the biopic genre Ideal for scholars in screenwriting and film studies industry professionals and students of screen production this book offers a deeper understanding of how biopics reveal truths about historical figures and events
