The Evolution Conspiracy:

The Evolution Conspiracy Caryl Matrisciana, Roger Oakland, 2016 The fruit of evolutionary beliefs abortion promiscuity drugs homosexuality etc is promoted at the expense of traditional values And the logical extensions of scientific evolutionism cosmic consciousness occultism New Age thinking have taken an unwary and uneducated public and church by storm Christians and Christian churches everywhere are embracing evolution as God s method of creation as they rush to endorse accommodate and adopt ungodly practices and thought to their own detriment God s people everywhere need to be called back to the truth before it is too late Others have written on such subjects before but Caryl Matrisciana and Roger Oakland add a new dimension Their persistent sleuthing has uncovered many a connection between the occult and evolution that were previously undetected Truly there is an evolutionary conspiracy and it can no longer be ignored by God s people From the Foreword by John D Morris Ph D *Why Conservatives Tell Stories and Liberals Don't* David M Ricci, 2015-12-03 Why do conservatives tell stories Because it helps them win elections and assail liberal policies like health care reform and economic stimulus Why is important but the what and the how behind the stories that conservatives tell are equally interesting and in this new book David Ricci reveals all He shows how conservative activists and candidates tell many tales that come together to project a large scale story a cultural narrative a vision of what America is and what it should do to prosper socially economically and politically Liberals by contrast tend to look for theories rather than stories for mathematical explanations rather than theological axioms for data rather than anecdotes and for statistics rather than homilies The difference is paradoxical Liberals are unlikely to fashion sweeping narratives that capture the public s attention and commitment Yet conservatives may tell attractive stories like the ones that got us into Iraq that momentarily capture voter support but end up costing the country more than it can afford **Rebuilding the Matrix** Denis Alexander, 2003 Fresh thinking and new insights on the nature of science in relation to faith showing particularly that 1 true science does not need to be and in fact is not hostile to religious faith and 2 evangelical Christians in general need not be either fearful of nor hostile toward scientific endeavor *A Walk Through Eternity* Bill W. Belter, 2011-05-18 A Walk through Eternity was created to lead you to put your faith in Jesus Christ for the salvation of your soul This book will help you understand what Gods purposes are for mankind It presents a case for Creationism gives an overview of the Old and New Testaments and explains the signs of the Second Coming of Jesus Christ **Science & Christianity** Richard F. Carlson, 2000-08-31 Six contributors here debate the relative merits of four distinct conceptions of the relationship between Christianity and science today Views range from a strict creationist posture to full fledged partnership Edited by Richard F Carlson **The Freethinker**, 1987 **From Darkness Into Light** Erwin Von Greiff, 2008-12 Recalling Gurdjieff s intent for his first series To destroy mercilessly without any compromises whatsoever in the mentation and feelings of the reader the beliefs and views by centuries rooted in him about everything existing in the world For years Gurdjieff s followers have been working reading struggling to understand his

writing We are like miners chipping away at the rocks of his books seeking the dog he so carefully buried That dog has been waiting patiently to be disinterred but we have been digging with the wrong tools A few new shovels and picks which may be helpful are suggested in this book They are here for the taking use them as you will As a word of caution though be careful when you pull the dog out He can be at times a bit wild And let s face it he s probably hungry after fifty years underground That is to say that dog could jump up and bite the legs right out from under some of your more treasured beliefs or it might even bite you somewhere dearer The purpose of the second series is To acquaint the reader with the material required for a new creation and to prove the soundness and good quality of it It is a ripening of time The seeds of Gurdjieff s Picture form language have been planted for over five decades and are now ready to burst through the soil of our Psyche to reveal the holographic images of the messages he intended for us And the purpose of the third series To assist the arising in the mentation and in the feelings of the reader of a veritable nonfantastic representation not of that illusory world which he now perceives but of the world existing in reality And with regard to languages Russian and English Gurdjieff said both these languages are like the dish which is called Moscow Solinka and into which everything goes except you and me in fact everything you wish and even the after dinner chesma veil of Sheherazade And from behind that veil Gurdjieff s hand now reaches to pull back the curtain enabling us to see if we will but open our eyes to the images hidden behind the words the esoteric teaching Creation: "Behold, it was very good." Richard Schaefer,2019-10-28 Author Richard A Schaefer was a lifelong communicator fascinated by stories and like any good journalist dug for the facts and verified sources exploring nagging questions such as Is creation or evolution more credible based on science and expert opinions This book truly represented a personal passion of looking at all sides of the CREATION vs EVOLUTION issue He called on many experts and theorists including Charles Darwin himself Surprisingly Darwin was far more skeptical of his own theories than are many PhDs today and admitted to significant holes in his logic Read for yourself as great thinkers explore the pros and cons of both theories and their variants The Biblical Basis for Modern Science Henry Madison Morris,2002 For decades Henry Morris has been known as a defender of the Christian faith It s an auspicious title for such a humble man yet no one can deny that the grasp Morris has on science and faith issues is staggering In this updated classic Morris walks the reader through history real history by showing the absurdity of evolution From a wide variety of sciences including astronomy biology chemistry physics and geology Morris presents clear evidence that the Bible gives us an astonishingly accurate record of the past present and future **Christian Home Educators' Curriculum Manual** Cathy Duffy,1997-11 **Investigation of the Assassination of Martin Luther King, Jr** United States.
