The Evolution Of Love:

The Evolution of Love Ada Lampert, 1997-09-16 Lampert presents the story of love when why and how love became a central experience of humans Assuming that our world is built of matter she states that evolution is the change of this matter according to the supreme criterion of success in offspring reproduction Love evolved because of its contribution to reproduction It first appeared in the mothers of mammals who used the body's proximity as a main adaptation Human love expands its borders to include the relationships between women and men friends and even nonhuman subjects Lampert describes motherhood as the source of the genetic hormonal brain and behavioral changes that we call love In the sexual stage love enters both as a way to select a partner and as a bonding force Sexuality is built upon ancient layers of early forms of life before humanity and includes strong elements of aggression which interrupt our ability to experience a peaceful sexual life Maternal love and sexual love combine in the evolution of the family Lampert also examines homosexual love as a way to look at the fascinating process of growing sexual identity and behavior in an individual Written in a style suited to any educated person Lampert uses current scientific knowledge on the brain hormones the nervous system ethology psychology and even modern physics to make her case This book will be of interest to students and scholars alike

The Evolution of Love Emil Lucka, 2020-11-17 Love is a theme which at all times and in all countries has been of primary interest to men and women and therefore this book which throws an illuminating ray of light in many a dark place still wrapped in mystery and silence not only impresses the psychologist but also fascinates the general reader with its wealth of interesting detail and charm of expression Ellie Schleussner In The Evolution of Love 1922 the Austrian Poet Philosopher Emil Lucka reveals his conception of the development of love and sex In his revolutionary presentation of ideas the author blends history psychology and philosophy to speculate that love is not a fundamental predisposition but evolved through historical changes There are three distinct stages of the development of love that Lucka explores in this important work Metaphysical Eroticism the first is the exploration of emotional climaxes and the sexual instinct Moving from prehistoric man through the ideals of Greek love and to the spread of Christianity he lays his foundation through the lens of history The second stage is Love which he again demonstrates its development through history specifically the birth of European civilization The third stage is the unity of sexual impulse and love the evolution of the spiritual love of man for woman based on personality Finally Lucka delves into erotic aberrations exploring perversities of sex and love through the progress of history In Lucka's conclusion he looks at the realm of the spirit in the context of Ernst Haeckel's biogenetic law With an eye catching new cover and professionally typeset manuscript this edition of The Evolution of Love is both modern and readable

McWilliams,2016-10-31 The Evolution of Love makes the argument that we ve been misled about what it means to love which has lead to heartbreak confusion and ultimately to fear love By incorporating science philosophy and psychology Mr McWilliams has upended the entire paradigm that love is about marriage and commitment

Rudolf Steiner's main lectures and writings related to love. From earthly love to the nature and function of spiritual love, these pieces are essential reading for anyone concerned with the future of humanity and the Earth. *Love and Its Meaning in the World* is essential reading for anyone who'd like to gain a deeper understanding of our true mission as human beings and the purpose of evolution on Earth. Chapters include *The Division of the Sexes*, *Lucifer and Christ*, *The Mission of Reverence*, *The Buddha's Teaching of Compassion and Love*, *Faith Love and Hope*, *Love without spiritual love*, *nothing spiritual can arise in evolution*. When we practice love, cultivate love, creative forces pour into the world. For human beings, love is the most important fruit of experience in the sensory world. Once we really understand the nature of love or compassion, we will find that love is the way spirit expresses its truth in the world of the senses. We may even say that in love, the spiritual world awakens in the physical. The more truly a soul inhabits the spiritual worlds, the more it experiences lovelessness and lack of compassion as a denial of spirit itself. Rudolf Steiner

Six Stages on the Spiritual Path Ruth Whitney, 2021-05-21. In *Six Stages on the Spiritual Path*, we learn about spirituality and its stages as well as how spirituality helps to reduce our suffering and create more love. Writings from ancient to contemporary mystics across the world provide us with practical and spiritual wisdom that will make our lives happier and more loving. In the first stage on the mystic way, children experience awe and wonder, but they do not realize that this is a spiritual experience. While all indigenous people recognize awe as a mystical experience, only some adults and most artists do. When parents and religious leaders teach children about God, they cause their spiritual growth to flourish or to become stunted at an elementary school level. Awakening is an experience of the Divine that helps us realize that the Sacred Spirit is within us and loves us. Awakening produces love for our neighbors and ourselves. Then love nurtures more awakenings. Illumination and union are deeper mystical experiences that the Holy One is not only within all of us and all of creation, but also that we are within the ONE. Illumination creates more love for all people and all the universe. *The Modern Review* Ramananda Chatterjee, 1914. Includes section *Reviews and notices of books*.
