The Magic Bullet:

The Magic Bullet Stein Harry, 2003 *The Elusive Magic Bullet* J. Mann, 1999 In his exciting new book John Mann author of the highly successful *Murder Magic and Medicine* reveals the history of the drugs that are so commonplace today in the treatment of disease While we can now treat so many of these illnesses the side effects caused by many of these treatments can be severe and even more worrying the bacteria are now becoming more resistant to the drugs the so called superbugs Scientists are also faced with a massive challenge in developing drugs that can effectively treat HIV ebola and many forms of cancer but without the terrible side effects of such treatments as chemotherapy or AZT this is the quest for the magic bullet The book starts with a history of drug development introducing us to some of the fascinating characters whose work so influenced the search for these drugs Leading up to the present day and the exciting advances being made within molecular biology the book provides a lively and fascinating introduction for non scientists to one of the most exciting fields of activity within modern medicine *The Magic Bullet* Allan R. Baylis, 2012 *The Magic Bullet* is a 21 day action plan that will improve all areas in your life Have you ever wondered why so few take action with their ideas only to see others pass them by *The Magic Bullet* will show you how to be one of the 5% who put thoughts into action This action oriented book focuses on implementation Since implementation happens through daily application Allan Baylis has designed an action plan that the reader must commit to for 21 consecutive days The first part of the book delineates ten important attitudes and an MDA method of daily application for the user Baylis argues that there has been an overemphasis on drilling for relevant skills and little emphasis on developing a positive learning attitude The author believes that the 10 attitudes presented in the book implemented on a daily basis will have a positive effect on attitudinal growth When you change an attitude you change everything After exploring the 10 attitudes Baylis presents people skills the most important skill of all Different personalities process information in different ways When you learn how other personalities process information you become more flexible The skills section shows the reader how to read and adjust to other personalities to improve communication skills An improved attitude coupled with improved people skills is what *The Magic Bullet* is all about *The Magic Bullet* Harry Stein, 1996 Daniel Logan has the world at his feet As the most gifted young doctor at New York City's top medical facility he has been aggressively wooed to join an exclusive lucrative private practice in the city Money celebrity status and great perks but Logan turns it all down For he is more interested in a different kind of fame Logan wants to help find a cure for cancer and is accepted into the prestigious American Cancer Institute in Washington D C to do research with some of the best minds in medicine and also some of the most ruthless cut throat scientists who will stop at nothing to protect their own cancer combative drug studies In *The Magic Bullet* Harry Stein brilliantly depicts the brutal deadly competitive world of the A C I where egomaniacal senior scientists jealously guard their research turf from up and coming young doctors like Logan and the other new researchers When Logan and two of his colleagues unearth a component that may effectively help fight breast

cancer he learns first hand just how desperate these scientists are As the doctors at A C I use all their influence to sabotage his research Logan frantically searches for more information about this wonder drug the missing piece in the breast cancer puzzle before the A C I destroys his career But the show down between Logan and the A C I has even greater implications the life of a highly placed woman in American politics is in jeopardy and only Logan s compound can help The Magic Bullet is a first rate gripping medical thriller filled with fascinating and terrifying details about the cold blooded world of high stakes cancer research Harry Stein takes a disturbing look at the ivory tower world of medicine where hubris not commitment and compassion is the rule The Magic Bullet ,2005 **The Magic Bullet Theory** Ronald Helminski,1978 *Medical Nihilism* Jacob Stegenga,2018-03-08 This book argues that if we consider the ubiquity of small effect sizes in medicine the extent of misleading evidence in medical research the thin theoretical basis of many interventions and the malleability of empirical methods and if we employ our best inductive framework then our confidence in medical interventions ought to be low *The Magic Bullet* Andrew Neiderman,2015-05-24 From the expert weaver of suspense and author of *The Devil s Advocate* comes this riveting tale about the medical what if of a cure for cancer Fresh Fiction Dr Allan Parker may have found the magic bullet the world has been waiting for all these years the cure for cancer in the blood of fifteen year old Taylor Petersen But there s only so much blood in Taylor s body and so many desperate people One of the most desperate is Frankie Vico a mobster who faces the death sentence of inoperable terminal cancer for which there is no reprieve And with time running out he s learned of one last hope Now he ll stop at nothing including kidnapping and murder to get his hands on Taylor s precious blood Caught in a deadly chase with only Dr Parker to help him Taylor will have to fight to save his own life and millions of others An exhilarating thriller that grips the audience with the concept of the magic bullet elixir Terrific The Mystery Gazette Populated by realistic characters and propelled by a fresh and exciting plot A very good very tight thriller Booklist **The Magic Bullet** Bruce C.
