# Theorizing Nationalism

**RJ Shavelson**

## **Theorizing Nationalism:**

**Theorizing Nationalism** Ronald Beiner, 1999 *Theorizing Nationalism* directly addresses the normative dimensions of nationalism A sequel to *Theorizing Citizenship* this volume brings theoretical and philosophical clarity to an examination of the political appeal and normative status of nationalist claims Some of the themes it discusses are the following whether there is a right to collective self determination the relationship between nationalism and modernity whether nationalism and liberalism can be reconciled whether there is a theoretically legitimate distinction between so called civic and ethnic versions of nationalism and the existential attractiveness of nationalism

[Theorizing Nationalism](#) Ronald Beiner, 1999 Presents some of the best work by political theorists on themes concerning citizenship national identity and the philosophical meaning of political membership

**Theorizing Nationalism** Graham Day, Andrew Thompson, 2004-10-29 This text offers a critical overview of the main approaches to the study of nationalism

**Theorizing Nationalism** Ronald Beiner, 1998-12-23 *Theorizing Nationalism* directly addresses the normative dimensions of nationalism A sequel to *Theorizing Citizenship* this volume brings theoretical and philosophical clarity to an examination of the political appeal and normative status of nationalist claims Some of the themes it discusses are the following whether there is a right to collective self determination the relationship between nationalism and modernity whether nationalism and liberalism can be reconciled whether there is a theoretically legitimate distinction between so called civic and ethnic versions of nationalism and the existential attractiveness of nationalism

**Nationalism** Paul Lawrence, 2016-09-17 Massive changes have taken place in the way nations and nationalism are thought about From being viewed enthusiastically by historians as a force for beneficial change before the First World War today appeals to national sentiment are viewed as far more complex and problematic This book looks at how historians and others such as sociologists and political theorists have explained the development and enduring importance of national identities from c 1850 to the present day It compares and contrasts a wide range of different theories and will be useful for anyone wanting to equip themselves with a theoretical understanding of why we live in nations and why we invest them with such significance

*The Palgrave Handbook of International Political Theory* Howard Williams, David Boucher, Peter Sutch, David Reidy, Alexandros Koutsoukis, 2023-11-02 This handbook provides an exploration of the field of International Political Theory IPT which in its broadest terms examines the ways in which ideas about justice sovereignty and legitimacy shape international politics It is a comprehensive resource for those interested in understanding the philosophical political and legal issues that arise from interactions between states peoples and global actors The two volumes of the handbook cover a wide range of topics from the foundations of international political thought to the latest debates in the field They are designed to give readers a comprehensive overview of the key concepts and arguments within international political theory and provide an introduction to the main debates in the field Volume 1 takes us from the ancient world to the formation of the modern state system as we lay the groundwork for a critical understanding of changes in and challenges to core ideas

such as sovereignty international law and territorial integrity The contributions to this volume explore the European domination of the discipline providing insights into how it came to conceive the world in its own image They also focus on non Western perspectives and reactions to European hegemony

**The Oxford Handbook of Political Ideologies** Michael Freeden, Lyman Tower Sargent, Marc Stears, 2013-08-15 This is the first comprehensive volume to offer a state of the art investigation both of the nature of political ideologies and of their main manifestations The diversity of ideology studies is represented by a mixture of the range of theories that illuminate the field combined with an appreciation of the changing complexity of concrete ideologies and the emergence of new ones Ideologies however are always with us The Handbook is divided into three sections The first is divided into three sections The first reflects some of the latest thinking about the development of ideology on an historical dimension from the standpoints of conceptual history Marx studies social science theory and history and leading schools of continental philosophy The second includes some of the most recent interpretations and theories of ideology all of which are sympathetic in their own ways to its exploration and close investigation even when judiciously critical of its social impact This section contains many of the more salient contemporary accounts of ideology The third focuses on the leading ideological families and traditions as well as on some of their cultural and geographical manifestations incorporating both historical and contemporary perspectives Each chapter is written by an expert in their field bringing the latest approaches and understandings to their task The Handbook will position the study of ideologies in the mainstream of political theory and political analysis and will attest to its indispensability both to courses on political theory and to scholars who wish to take their understanding of ideologies in new directions

**Nationalism** Anthony D. Smith, 2010-11-08 For the last two centuries nationalism has been a central feature of society and politics Few ideologies can match its power and resonance and no other political movement and symbolic language has such worldwide appeal and resilience But nationalism is also a form of public culture and political religion which draws on much older cultural and symbolic forms Seeking to do justice to these different facets of nationalism the second edition of this popular and respected overview has been revised and updated with contemporary developments and the latest scholarly work It aims to provide a concise and accessible introduction to the core concepts and varieties of nationalist ideology a clear analysis of the major competing paradigms and theories of nations and nationalism a critical account of the often opposed histories and periodization of the nation and nationalism and an assessment of the prospects of nationalism and its continued global power and persistence Broad and comparative in scope the book is strongly interdisciplinary drawing on ideas and insights from history political science sociology and anthropology The focus is theoretical but it also includes a fresh examination of some of the main historical and contemporary empirical contributions to the literature on the subject It will continue to be an invaluable resource for students of nationalism across the social sciences

**Reassessing Political Ideologies** Michael Freeden, 2004-08-02 This book is a high level examination of each of the major ideologies that have shaped political thinking

action and conflict Each chapter provides a critical overview of the current state of the major ideologies and a retrospective assessment of the strengths weaknesses developments and transformations of these ideologies over the past century The volume poses a strong challenge to those who have loudly proclaimed the end of ideology by demonstrating that it is impossible to understand current political developments without an appreciation of their ideological context It features internationally respected contributors who are authorities in their fields and will be an invaluable resource for both students and specialists in areas including Politics and International Relations

*Defining the Sovereign Community* Nadya Nedelsky,2009-07-03 Defining the Sovereign Community asks why the two nations have defined sovereignty so differently and what impact these choices have had on individual and minority rights and participation

*Enduring Injustice* Jeff Spinner-Halev,2012-04-19 Argues that understanding the impact of past injustices faced by some peoples can help us understand and overcome injustice today

**Nationalism and Social Theory** Gerard Delanty,Patrick O'Mahony,2002-04-26 Why has nationalism proved so durable What are the roots of its appeal This sharp and accessible book slices through the myths surrounding nationalism and provides an important new perspective on this perennial subject The book argues that nationalism is persistent not merely because of its specific ideological appeal but because it expresses some of the major conflicts in modernity nationalism reflects and reinforces four key trends in western social development state formation democratization capitalism and the rationalization of culture the forms of nationalism can be organized into a comprehensive typology which is outlined in the course of this study post nationalism and cosmopolitanism are significant innovations in the debate about nation states and nationalism and that the new radical nationalisms have become powerful new movements in the global age

**Social Theory and Practice** ,2011 *Issues in Political Theory* Catriona McKinnon,2008 This is a unique political theory textbook that invites students to apply the concepts they encounter to real world politics Each chapter includes a 2 000 word case study to highlight the theories that have been discussed The lucid and elegant contributions by leading thinkers enables engagement with the subject at its sharp end without any compromise in accessibility This is essential reading for all political theory students from beginners onwards Online Resource CentreThe book is accompanied by the following resources Student Site Case studies for each chapterAnnotated web links for each chapterLinks to journal articlesInstructor Site Essay questions seminar questions and activities

[The Theory and Practice of Third World Solidarity](#) Darryl C. Thomas,2001-02-28 This study examines the development of Third World solidarity within the broader historical context of changing hegemonic power systems from Pax Britannia to Pax Americana Thomas focuses on the political economic and racial structures that are fundamental to hegemonic supremacy over peripheral and semiperipheral states and he analyzes the divergent modes of Third World incorporation subordination into the world system He concludes that the racial structure of global apartheid that dominated the world system during the colonial period is re emerging under the rubric of a New World Order

*Canadian Review of Studies in Nationalism* ,2003 **Globalism, Nationalism, Tribalism**

Paul James, 2006-04-20 Paul James has written a magnificent account of the world's current condition one that highlights the complexities and contradictions with which people, communities, and nations must contend and that does so in a compelling and creative style. Stressing the interaction between global and local forces, his writing style is lively and compelling as well as peppered with a wide range of citations from *Woman's Day* to the *Cambodian Daily* on the same page. James N. Rosenau, University Professor of International Affairs, The George Washington University, *Globalism, Nationalism, Tribalism* establishes a new basis for understanding the changing nature of polity and community and offers unprecedented attention to these dominant trends. Paul James charts the contradictions and tensions we all encounter in an era of increasing globalization from genocide and terrorism to television and finance capital. Globalism is treated as an uneven and layered process of spatial expansion, not simply one of disorder, fragmentation, or rupture. Nor is it simply a force of homogenization. Nationalism is taken seriously as a continuing and important formation of contemporary identity and politics. James rewrites the modernist theories of the nation state without devolving into the postmodernist assertion that all is invention or surface gloss. Tribalism is given the attention it has long warranted and is analyzed as a continuing and changing formation of social life from the villages of Rwanda to the cities of the West. Theoretically adept and powerfully argued, this is the first comprehensive analysis that brings these crucial themes of contemporary life together. **Nationalism and Democratic Transition** Mark A. Jubulis, 2001-05-09 *Nationalism and Democratic Transition* explores the impact of nationalism during Latvia's transition from communist rule, 1988-1991, and examines the post-Soviet efforts of Latvia to construct a democratic nation state in a multi-ethnic context. While most observers have labeled Latvia as a typical example of a state promoting an exclusive form of ethnic nationalism, the author argues that Latvia's path to independence was characterized by a moderate, non-violent form of nationalism which sought to include non-Latvian groups in the struggle against Soviet rule. *The Politics of Multiple Belonging* Flemming Christiansen, Ulf Hedetoft, 2004 This international collection examines how ethnic identity and belonging are created and used politically in Europe and East Asia. The contributors respond to debates about whether and how regional, supranational, transnational, and multicultural identities may compromise nation states and how nation states deal with such centrifugal forces. The issues are discussed from various perspectives: diasporic communities, the State, and its role in inventing and influencing national belonging, and societies and communities with a strongly engineered multicultural structure. Two central theoretical chapters examine the current debates on belonging and multiculturalism, bringing together this complex field and developing new perspectives. In particular, the volume improves our understanding of how people belong in different contexts by examining how they give shape to belonging; it is possible to understand how these diverse trends cohere within nation states and across continents. *Imagining an Austrian Nation* Ian Reifowitz, 2003 Attempting to cultivate an Austrian identity based on a civic conception of a national community, this text focuses on the ideas of Joseph Samuel Bloch, an Austrian Jewish writer and politician who sought to create a civic identity to unify the nationalities.

of multiethnic Austria
