Small Killing

AW Chickering

Small Killing:

The Shock of the Old David Edgerton, 2007-01-22 From the books of H G Wells to the press releases of NASA we are awash in clichéd claims about high technology's ability to change the course of history Now in *The Shock of the Old* David Edgerton offers a startling new and fresh way of thinking about the history of technology radically revising our ideas about the interaction of technology and society in the past and in the present He challenges us to view the history of technology in terms of what everyday people have actually used and continue to use rather than just sophisticated inventions Indeed many highly touted technologies from the V 2 rocket to the Concorde jet have been costly failures while many mundane discoveries like corrugated iron become hugely important around the world Edgerton reassesses the significance of such acclaimed inventions as the Pill and information technology and underscores the continued importance of unheralded technology debunking many notions about the implications of the information age A provocative history *The Shock of the Old* provides an entirely new way of looking historically at the relationship between invention and innovation

Investigation Relative to Wages and Prices of Commodities United States. Congress. Senate. Select committee on wages and prices of commodities. [from old catalog], 1910

The Coming of the Holocaust Peter Kenez, 2013-09-30 The Coming of the Holocaust aims to help readers understand the circumstances that made the Holocaust possible Peter Kenez demonstrates that the occurrence of the Holocaust was not predetermined as a result of modern history but instead was the result of contingencies He shows that three preconditions had to exist for the genocide to take place modern anti-Semitism meaning Jews had to become economically and culturally successful in the post French Revolution world to arouse fear rather than contempt an extremist group possessing a deeply held irrational and profoundly inhumane worldview had to take control of the machinery of a powerful modern state and the context of a major war with mass killings The book also discusses the correlations between social and historical differences in individual countries regarding the success of the Germans in their effort to exterminate Jews

Scribner's Monthly, an Illustrated Magazine for the People, 1920 *Infantry*, 1965

Run-time Models for Self-managing Systems and Applications Danilo Ardagna, Li Zhang, 2010-11-15 The complexity of Information Technology IT systems has been steadily increasing in the past decades In October 2001 IBM released the Autonomic Computing Manifesto observing that current applications have reached the size of millions of lines of code while physical infrastructures include thousands of heterogeneous servers requiring skilled IT professionals to install configure tune and maintain System complexity has been recognized as the main obstacle to the further advancement of IT technology The basic idea of Autonomic Computing is to develop IT systems that are able to manage themselves as the human autonomic nervous system governs basic body functions such as heart rate or body temperature thus freeing the conscious brain IT administrators from the burden of dealing with low level vital functions Autonomic Computing systems can be implemented by introducing autonomic controllers which continuously monitor analyze plan and execute the famous MAPE cycle reconfiguration actions on the

system components Monitoring activities are deployed to measure the workload and performance metrics of each running component so as to identify system faults The goal of the analysis activities is to determine the status of components from the monitoring data and to forecast future conditions based on historical observations Finally plan and execute activities aim at deciding and actuating the next system configuration for example deciding whether to accept or reject new requests determining the best application to servers assignment in order to achieve the self optimization goals
