Introduction to Computers in Education for Elementary and Middle School Teachers David G. Moursund, 1981 SUMMARY An introduction to computers computer programs and programming educational programs and how computers may be used in the classroom *The Computer as an Educational Tool* Richard C. Forcier, Don E. Descy, 2005 For Computers in Education and Instructional Technology courses This text describes the computer as a necessary classroom tool that not only empowers teachers to teach their students to use computers to solve problems but also shows teachers how to do the same The text explains technical matters in language that is understandable to the non-computer savvy and includes numerous examples drawn from both PC Windows and Macintosh platforms The authors use problem solving models to clarify specific applications and incorporate national international standards to create a text that works across a broad educational spectrum The inspiration for this readable student friendly text is the idea that technology should be a means to an end not the focus of attention

Computers into Classrooms John Beynon, Hugh Mackay, 2025-12-01 First published in 1993 Computers into Classrooms critically examines computers and their uses in teaching and learning It sets out to raise fundamental questions concerning the nature of technological literacy a hitherto vague term The authors set out to provide a series of guidelines for teachers employing or about to employ computers in their classrooms Many of the issues raised have yet to be adequately researched and teachers are alerted to the dangers and shortcomings of too easy a reliance on these machines This book is the last in a trilogy which includes Understanding Technology in Education and Technological Literacy and the Curriculum *Teachers, Computers, and the Classroom* Ivan Reid, James Rushton, 1985
