The Delicate Balance:

The Delicate Balance Adrienne Evans Johnson, 2011-10-05 Marriage is in crisis The divorce rate is high and both men and women have gravitated to roles that are unstable unhealthy and unnatural The thing that we desire the most seems to give the most turmoil How can it be that God created marriage as the foundational relationship for society and yet it is the most difficult of relationships How is it that God said It is not good for man to be alone yet every time man and woman get together their union brings more smoke than fire Is it the two becoming one that creates the problem or the choices we make in marriage God has a wonderful plan for marriage that carefully blooms into a delightful union when you choose Him as your guide Every woman who desires a marriage made in heaven will appreciate Adriennes honest open and real approach to the difficult areas of marriage She shares real life experiences that inspire encourage and re affirm the value of womanhood and the beauty of holy matrimony

The Delicate Balance Chris Evans, Judith Freedman, Richard E. Krever, 2011 Few aspects of revenue law generate stronger feelings than the exercise of discretionary power by tax administrations A delicate balance often needs to be struck between the legitimate needs of revenue authorities and the equally legitimate interests and rights of taxpayers On the one hand the executive and administration need to have sufficient capacity to apply the law on the other there is a need to maintain the principle of the rule of law that it is the elected legislature and not the executive or tax administration that establishes tax burdens The chapters in this volume explore that delicate balance The Delicate Balance Tax Discretion and the Rule of Law considers the critical questions that arise from the intersections of tax discretion and the rule of law in modern common and civil law jurisdictions What do we mean by tax discretion and how does it vary in conceptual and practical terms in different tax regimes What role should discretion play in tax systems that operate under the rule of law and how large should that role be What are the legal political institutional and other constraints that can prevent abuse of discretion To what extent can and should the legislature safely delegate discretionary powers to tax administrations
