Waves cleverly puns on the title of one of von Trier's most famous features and argues that Dogma 95 like much of the director's low budget realist productions is a game that takes cinema beyond the traditional confines of film aesthetics and dramatic rules. Simons articulates the ways in which von Trier redefines the practice of filmmaking as a rule bound activity and stipulates the forms and structures of games von Trier brings to bear on his films as well as the sobering lessons he draws from economic and evolutionary game theory. Much like the director's films this fascinating volume takes the traditional point of view of film theory and film aesthetics to the next level and demonstrates we have much to learn from the perspective of game studies and game theory.

Academonia Dodie Bellamy, 2006 Fiction Cultural Writing Essays A series of essays ACADEMONIA is also an epic narrative of survival against institutional deadening and the proscriptiveness that shoots the young writer like poison darts from all sides. Here Bellamy explores the prickly intersection among these institutional spaces as it moves through institutions such as the academy the experimental writing communities of the Bay Area feminist and sexual identities and group therapy. Continuing the work that she began in *The Letters of Mina Harker* pushing memoir and confession out of its safety zones and into its difficulties this book provokes as it critiques and it critiques and yet at the same time manages to delight with its hope.
