Bentley, Ziegler, Herbert, 2005-03-31 **Bentley, Traditions & Encounters: A Global Perspective on the Past, AP Edition ©2015 6e, Student Edition** Herbert Ziegler, Jerry Bentley, 2014-12-16 *Traditions and Encounters* new Advanced Placement edition offers an inclusive vision of the global past one that is meaningful and appropriate for the interdependent world of contemporary times. Through new and revised chapter level and part level features the hallmark twin themes of traditions and encounters emerge in greater clarity than ever before. Kraemer takes issue with the scholarly consensus that the tale is a Jewish conversion story composed no later than the early second century C E. Instead she dates it to the third or fourth century C E and argues that although no definitive answer is presently possible it may well be a Christian account. This critique also raises larger issues about the dating and identification of many similar writings known as pseudepigrapha. Kraemer reads its account of Aseneth's interactions with an angelic double of Joseph in the context of ancient accounts of encounters with powerful divine beings including the sun god Helios and of Neoplatonic

ideas about the fate of souls When Aseneth Met Joseph demonstrates the centrality of ideas about gender in the representation of Aseneth and by extension offers implications for broader concerns about gender in Late Antiquity

Gods in the Global Village Lester R. Kurtz,2012 In an era plagued by religious conflict the Third Edition of Gods in the Global Village directly responds to issues of social problems prevalent in the world today Using an engaging thought provoking style author Lester R Kurtz focuses on the relationship among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order This book focuses on a central aspect of that common crisis A major assumption of this book is that all knowledge is shaped by the social context of the knower therefore both religious traditions and our studies of them are shaped by the context in which we construct them The author argues that religious pluralism will be a necessary precondition of the global village for the foreseeable future The question that faces us as a human community is not Which religious tradition is true or even Is any religious tradition true but rather How can we enable the various religious and secular traditions to coexist peacefully on the planet The text supports the belief that the sociology of religion itself a pluralistic discipline can provide invaluable insight into the most pressing problems of our time

The Fortunes of Inquiry Nicholas Jardine,1986 The belief that science shows an accumulation of a body of objective knowledge has been widely challenged by philosophers and historians in the latter half of this century In this treatise Dr Jardine defends this belief with a careful appreciation of the complexities involved drawing on many controversial issues concerning truth in science interpretation of past theories and grounds of scientific method
