Paul Ricœur

Tragic Myth:

The Symbolism of Evil Paul Ricoeur, 1967 According to Ricoeur the most primal and spontaneous symbols of evil are defilement sin and guilt Ricoeur moves from the elementary symbols of evil into the rich world of myths and he ends by suggesting that the clue to the relation between philosophy to mythology is to be found in the aphorism The symbol gives rise to the thought Ricoeur s method and argument are too intricate and rich to assess in so short a review Suffice it to say that this is the most massive accomplishment of any philosopher within the ambience of Christian faith since the appearance of Gabriel Marcel Sam Keen *The Christian Century* *Tragedy, Recognition, and the Death of God* Robert R. Williams, 2012-09-27 Hegel and Nietzsche are two of the most important figures in philosophy and religion Robert R Williams challenges the view that they are mutually exclusive He identifies four areas of convergence First Hegel and Nietzsche express and define modern interest in tragedy as a philosophical topic Each seeks to correct the traditional philosophical and theological suppression of a tragic view of existence This suppression of the tragic is required by the moral vision of the world both in the tradition and in Kant s practical philosophy and its postulates For both Hegel and Nietzsche the moral vision of the world is a projection of spurious life negating values that Nietzsche calls the ascetic ideal and that Hegel identifies as the spurious infinite The moral God is the enforcer of morality Second while acknowledging a tragic dimension of existence Hegel and Nietzsche nevertheless affirm that existence is good in spite of suffering Both affirm a vision of human freedom as open to otherness and requiring recognition and community Struggle and contestation have affirmative significance for both Third while the moral God is dead this does not put an end to the God question Theology must incorporate the death of God as its own theme The union of God and death expressing divine love is for Hegel the basic speculative intuition This implies a dipolar panentheistic concept of a tragic suffering God who risks loves and reconciles Fourth Williams argues that both Hegel and Nietzsche pursue theodicy not as a justification of the moral God but rather as a question of the meaningfulness and goodness of existence despite nihilism and despite tragic conflict and suffering The inseparability of divine love and anguish means that reconciliation is no conflict free harmony but includes a paradoxical tragic dissonance reconciliation is a disquieted bliss in disaster The Ritual Theater of Aimé Césaire Marianne Wichmann Bailey, 1992 Writings of Nietzsche: Volume II Friedrich Nietzsche, 2016-12-28 Laying out the process of Greek based education and philosophy this volume collects together the major works of Nietzsche that give his thoughts on the Greek philosophical systems as well as how they should be instituted into our societies Although he continues in his harsh and dominant styles of thought the teaching laid out here continues to affect our communities today just as they did hundreds of years ago when first published Nietzsche Richard Schacht, 2013-08-16 First published in 1999 This book in compliance with the aims of the series attempts to provide a comprehensive and critical account of Nietzsche s thought The present study is an examination of his philosophical thinking and while this already makes it selective as well as interpretive it is of

necessity selective in other ways as well *Evagrius Ponticus and Cognitive Science* George Tsakiridis,2010-01-15 This study puts the thought of Evagrius Ponticus a fourth century theologian into dialogue with modern cognitive science in regard to the topic of evil specifically moral evil Evagrius in his writings about prayer and the ascetic life addressed the struggle with personal moral evil in terms of the eight thoughts or demons These thoughts were transmitted by John Cassian to the Western church and later recast by Gregory the Great as the Seven Deadly Sins Though present understandings of evil appear to differ greatly from those of Evagrius his wisdom concerning the battle against evil may prove to be of great help even today Using the work of Pierre Hadot to recover Evagrius s context and the work of Paul Ricoeur to discuss how we construct descriptions and myths of evil Evagrius is brought into dialogue with the cognitive sciences Using current research especially the work of Eugene d Aquili and Andrew Newberg this study reveals the contemporary relevance of Evagrius approach to combating evil In addition the interdisciplinary study of patristics and cognitive science opens the pathway to a better understanding between Christian tradition and the modern sciences
