**The Northern Earldoms** Barbara E. Crawford, 2013-08-08 The medieval earldoms of Orkney and Caithness were positioned between two worlds the Norwegian and the Scottish They were a maritime lordship divided or united by the turbulent waters of the Pentland Firth This unlikely combination of island and mainland territory survived as a single lordship for 600 years against the odds Growing out of the Viking maelstrom of the early Middle Ages it became an established and wealthy principality which dominated northern waters with a renowned dynasty of earls Despite their peripheral location these earls were fully in touch with the kingdoms of Norway and Scotland and increasingly subject to the rulers of these kingdoms How they maintained their independence and how they survived the clash of loyalties are themes explored in this book from the early Viking age to the late medieval era when the powerful feudal Sinclair earls ruled the islands and regained possession of Caithness This is a story of the time when the Northern Isles of Scotland were part of a different national entity which explains the background to the non Gaelic culture of this locality when links across the North Sea were as important as links with the kingdom of Scotland to the south Saga Book

*The Birsay Bay Project* Christopher D. Morris, 2021-06-23. The Brough of Birsay was the power center of the Viking earldom of Orkney and is one of Historic Environment Scotland's key monuments and visitor attractions on the islands. This publication is the culmination of 60 years of investigations that took place on the site between 1954 and 2014. This new volume incorporates comprehensive accounts of work undertaken by Dr. Raleigh Radford and Mr. Stewart Cruden between 1954 and 1964; excavations by the Viking and Early Settlement Research Project under the direction of the author on site between 1974 and 1981; a rescue excavation in 1993; a geophysical survey in 2007; and archival research up to 2014. Specialist artefactual and palaeobiological studies of metallurgical material, ogham inscriptions, and a gilt bronze mount of Insular origin are included together with re-analysis of the radiocarbon dates from all sites in Birsay Bay and a re-assessment of the architecture and dating of the church and related buildings on the Brough itself. The final two chapters put the Brough as both a Pictish power center and the hub of the Viking earldom in the overall context of Birsay Bay and Viking and late Norse Orkney and the wider world between the Pictish and late Norse Medieval periods. As well as being the author's third and final volume reporting on work for the Birsay Bay Project, this volume completes a trilogy of studies of the Brough itself alongside Mrs. Cecil Curle's and Prof. John Hunter's earlier monographs.
