Violence As Protest

Ted Robert Gurr

Violence As Protest:

Justifying Violent Protest James Greenwood-Reeves, 2022-12-30 This book presents a radical but compelling argument that liberal democracies must be able accommodate violent protest We often think of violent protest as being alien to liberal democracy an extraordinary occurrence within our peaceful societies Yet this is simply untrue Violent protest is a frequent and normal part of democratic life The real question is should it be Can rebellion or riot against government ever be morally justifiable in our society By framing state demands for obedience as legitimacy claims or moral arguments states who make illogical and unjust laws make weaker arguments for obedience This in turn gives citizens stronger moral reasons to disobey Violence can act as moral dialogue with expressive and instrumental value in denouncing unjust laws and can have just as important a role in democracy as peaceful protest This book examines the activism of Hong Kong pro democracy protesters Extinction Rebellion Black Lives Matter and many other groups internationally in order to demonstrate that not only can violent protest be acceptable in times of grave injustice it is unavoidable This book will appeal to a broad range of academics in legal and political theory sociolegal studies criminology history and philosophy as well as others with interests in contemporary forms of protest [Violent Protest, Contentious Politics, and the Neoliberal State](#) Seraphim Seferiades, Hank Johnston, 2016-02-11 This volume of cutting edge research comparatively analyzes violent protest and rioting furthering our understanding of this increasingly prevalent form of claim making Hank Johnston and Seraphim Seferiades bring together internationally recognized experts in the field of protest studies and contentious politics to analyze the causes and trajectories of violence as a protest tactic Crossnational comparisons from North America Britain France Germany Greece Iran Thailand and elsewhere contribute to the volume s theoretical elaboration while several case studies add depth to the discussion This title will be of key importance to scholars across the social sciences including sociology political science geography and criminology Johnston and Seferiades s exciting book is a significant contribution to the study of rioting and violent protest in the contemporary neoliberal state **Media, Protest, and Political Violence** Gadi Wolfsfeld, 1991

Peaceful Protest Vs. Political Violence Stephanie Stanley, 2020 This project explains the conditions under which American social movements that begin their mobilization through peaceful lawful acts of protest become politically violent To do so I propose and develop a new unifying framework called the state legitimacy framework The state legitimacy framework contends that protest strategy escalation from peaceful lawful protests to civil disobedience occurs once a movement movement faction begins to lose faith in the state s absolute lawmaking capacity Furthermore if and when a movement or movement faction loses faith in the state as a system of governance it is highly likely to engage in a politically violent protest strategy There are three factors that shape a movement s perception of the state s legitimacy or lack thereof 1 types of rights claims embedded in the movement s demands 2 the movement s perception of the state s response to the movement s demands and its activists and 3 the movement s religious and or ideological commitments The three cases examined here the

Abolitionist Movement the Prohibitionist Movement and the Civil Rights Movement demonstrate how the state legitimacy framework is both generalizable across American social movements and critical in developing movement specific causal theories of protest strategy escalation

Situational Breakdowns Anne Nassauer, 2019 *Situational Breakdowns* develops a counterintuitive approach on how surprising social outcomes emerge through a detailed analysis of the breakdown of everyday routines in violent protests violence in uprisings and failed store robberies

[Media Representation and Public Perception of War](#) Al-Kassimi, Khaled, Işık, Tuba, Fahim, Muhammad, Gezmen, Başak, 2025-11-10 Media representation plays a role in the public perception of war influencing how conflicts are understood and remembered Through selective imagery language and framing media outlets can portray war differently depending on political agendas cultural narratives or economic interests This dynamic impacts public opinion while affecting policy decisions national morale and lived experiences Examining how war is represented in the media may further reveal the relationships between information power and public perception in times of crisis *Media Representation and Public Perception of War* explores and analyzes the media coverage of conflict uncovering the narratives biases and influences that shape public opinion It examines the complexities involved in international media coverage and its impact on global humanitarian discourse This book covers topics such as political science social media and cyber warfare and is a useful resource for government officials policymakers media and communications professionals academicians researchers and political scientists

The Psychology of Political Violence Emma Goldman, 1911

The Criminalization of Political Protest in Berkeley, 1960 - 1970 Timothy William Armistead, 1977

Violence as Protest Robert M. Fogelson, 1980

Violence in America Ted Robert Gurr, 1989-06 An excellent companion to *Violence in America* *The History of Crime* this volume provides fascinating insight into recently developed theories on the sources of recurring conflict in American society With their main focus on traumatic issues that have generated group violence and continue to do so the contributors discuss the most intractable source of social and political conflict in our history the resistance of Black Americans to their inferior status and the efforts of White Americans to keep them there Other intriguing topics include the emergence and decline of political terrorism and the continuation of violent threats from right wing extremists such as the Klan the Order and the Aryan nations The basic assumption underlying all interpretations is that group violence grows out of the dynamics of social change and political contention The idea presented is that the origins processes and outcomes of group violence like the causes and consequences of crime must be understood and dealt with in their social contexts This volume is essential reading for students and professionals in history criminology victimology political science and other related areas

SEE QUOTE W VOLUME ONE

The Voice of Violence Joel P. Rhodes, 2001-04-30 The tide of 1960s political upheaval while mistaken at the time by some as a unified assault against America carried out by revolutionaries at home and abroad was actually hundreds of locally constructed expressions of political discourse reflecting the influences of race class gender and local conditions on each unique group of practitioners

This is a comparative study of how radicals at the local level staged displayed and ultimately narrated symbolic acts of performative violence against the symbols of the American system The term performative violence refers to a method of public protest whereby participants create the conditions in which their violent actions become a political text a powerful symbol with a strong historical precedent Recognizing the textuality of history this interdisciplinary examination deconstructs the performative violence within its historically specific and socially constructed contexts using four representative case histories of late 1960s and early 1970s activism These are the African American rioters in Kansas City the Black Panther Party in Detroit campus radicals at Kansas State University and activists at the University of Kansas Rather than focusing on the major clashes of the Vietnam era this book contributes to recent scholarship on the 1960s which has attempted to offer a more textured analysis of the era s activism particularly its political violence based on more local studies [Violent Protest, Contentious Politics, and the Neoliberal State](#) Seraphim Seferiades,Dr Hank Johnston,2013-01-28 This volume of cutting edge research comparatively analyzes violent protest and rioting furthering our understanding of this increasingly prevalent form of claim making Hank Johnston and Seraphim Seferiades bring together internationally recognized experts in the field of protest studies and contentious politics to analyze the causes and trajectories of violence as a protest tactic Crossnational comparisons from North America Britain France Germany Greece Iran Thailand and elsewhere contribute to the volume s theoretical elaboration while several case studies add depth to the discussion This title will be of key importance to scholars across the social sciences including sociology political science geography and criminology Johnston and Seferiades s exciting book is a significant contribution to the study of rioting and violent protest in the contemporary neoliberal state **The Process of Political Protest in Panama** Brittmarie Janson Pérez,1994 [Outlook](#) Alfred Emanuel Smith,Francis Walton,1906 *New Outlook* ,1904 **The Outlook** Lyman Abbott,Hamilton Wright Mabie,Ernest Hamlin Abbott,Francis Rufus Bellamy,1906 **More about Justifying Violence** Monica D. Blumenthal,1975 **No Justice, No Peace** Avia Pasternak,2025-04-18 In the summer of 2020 angry citizens took to the streets of Minneapolis after a recording of the murder of George Floyd went viral They set fire to a police station destroyed cars and shops and clashed with police In the summer of 2023 violent disorder broke out across France after police killed a seventeen year old boy In 2011 protests spread from London across England after police murdered a young Black man during a police arrest State authorities were quick to denounce such uprisings as callous lawlessness Were they right Are violent protestors unscrupulous criminals or might their revolt be justified despite its lawlessness and the heavy costs it imposes In No Justice No Peace Avia Pasternak highlights the political nature of such protests offering an in depth examination of these pressing questions Violent protestors she argues disrupt the peace in order to achieve justice and to express their defiance of an unjust political order Pasternak shows that even in liberal democracies resorting to violence on behalf of these important goals can be necessary and proportionate Combining empirical analysis of political oppression in contemporary states with a

normative assessment of ordinary citizens duty to resist oppression Pasternak asserts that violence in protest against state injustice can be permissible while also acknowledging its key limits *Prisons, Protest, and Politics* Burton M. Atkins,1972
Unity ,1922

This is likewise one of the factors by obtaining the soft documents of this **Violence As Protest** by online. You might not require more time to spend to go to the ebook start as without difficulty as search for them. In some cases, you likewise realize not discover the declaration Violence As Protest that you are looking for. It will utterly squander the time.

However below, subsequently you visit this web page, it will be as a result enormously simple to get as without difficulty as download lead Violence As Protest

It will not take many times as we run by before. You can complete it even though take effect something else at house and even in your workplace. in view of that easy! So, are you question? Just exercise just what we pay for below as with ease as evaluation **Violence As Protest** what you afterward to read!
