## **Violence In America:**

*Violence in America* Hugh Davis Graham, Ted Robert Gurr, United States. National Commission on the Causes and Prevention of Violence. Task Force on Historical and Comparative Perspectives, United States. National Commission on the Causes and Prevention of Violence, 1979-07 A total reworking of this 1968 bestseller with nine entirely new chapters taking into account the radical changes in American society and American violence over the last decade Of interest to anyone concerned with the interpretation of America's turbulent past and the assessment of its future

**Violence in America** Ted Robert Gurr, 1989-06 An excellent companion to *Violence in America* The History of Crime this volume provides fascinating insight into recently developed theories on the sources of recurring conflict in American society With their main focus on traumatic issues that have generated group violence and continue to do so the contributors discuss the most intractable source of social and political conflict in our history the resistance of Black Americans to their inferior status and the efforts of White Americans to keep them there Other intriguing topics include the emergence and decline of political terrorism and the continuation of violent threats from right wing extremists such as the Klan the Order and the Aryan nations The basic assumption underlying all interpretations is that group violence grows out of the dynamics of social change and political contention The idea presented is that the origins processes and outcomes of group violence like the causes and consequences of crime must be understood and dealt with in their social contexts This volume is essential reading for students and professionals in history criminology victimology political science and other related areas SEE QUOTE W VOLUME ONE

*Crime is Not the Problem* Franklin E. Zimring, Gordon Hawkins, 1997 Publisher Fact Sheet Offers a startling new look at crime violence in America that will reshape the debate about crime control

*Violent America* Ariane Chebel d'Appollonia, 2023-02-15 In *Violent America* Ariane Chebel d'Appollonia counterintuitively analyzes why and how various ethnoracial groups proactively and instrumentally use different forms of violence to achieve their goals Combining a historical analysis spanning the centuries with an examination of contemporary problems she considers how and why ethnoracial groups can be both perpetrators and victims of violence why some minority groups react differently to violence in comparable situations and what the consequences are today for politics in both America and Europe *Violent America* thus explores the effects of physical and discursive violence on the ways in which ethnoracial groups define themselves Chebel d'Appollonia argues that the use of ethnoracial violence has been and remains an effective identity strategy by which all ethnoracial groups are able to integrate themselves into the mainstream of American society She provides an alternative way of understanding the complex relationship between migrant phobia multiethnic grievances and intergroup conflicts in America

**American Violence** Richard Hofstadter, Michael Wallace, 1970 A history of American domestic violence

**The Violence Inside Us** Christopher Scott Murphy, 2020 Is America really an ultra violent nation This sweeping history by Chris Murphy U S senator from Connecticut interrogates the origins of our violent impulses the roots of our obsession with

firearms and the national mythologies that prevent us from confronting our crisis of violence In many ways the United States is an economic social and political pacesetter Yet American ingenuity has failed to address one of the most fundamental of all human concerns the imperative to keep ourselves and our loved ones safe from harm Alone in the developed world America is bathed in violence Our churches and schools our movie theaters and dance clubs our workplaces and our streetscapes no longer feel safe Our political discourse is consumed by intimations of violence and our foreign policy is centered on the violence that we export to the rest of the world Violence has become it seems America s most insoluble problem But to confront this problem we must first understand it The Violence Inside Us examines the deep roots of human violence itself and the propensity of people to harm themselves and each other The result is a carefully researched deeply emotional and personal book that dissects America s violence obsession through an evolutionary historical and economic lens It also takes a hard look at one distinctly American feature our love of guns Murphy tells the story of his profound personal transformation in the wake of the mass murder at Newtown and his subsequent immersion in the complicated web of influences that drive American violence Murphy comes to the conclusion that while America s historical and cultural relationship to violence is indeed unique America is not inescapably violent We have the power to change he explains while detailing the reasons why we ve tolerated so much violence for so long Weaving together personal narrative captivating storytelling and compelling history Murphy takes on all the familiar arguments obliterates the stale talking points and points the way to a fresh less polarized conversation about violence and the weapons that enable it a conversation we urgently need in order to transform the national dialogue The Violence Inside Us is the moving and extraordinary result of Senator Murphy s deep exploration of the roots and modern reality of American violence It is also a work of honest self examination that is exceptionally rare among the political class This book is different and it will make a difference *Gun Violence in America* Alexander

DeConde,2001 An in depth analysis of the folklore surrounding gun use and the state of the debate in today s political climate

Violence in America: A-F Ronald Gottesman,Richard Maxwell Brown,1999-01-01 Contains 595 alphabetically arranged entries that provide information about the history of violence in America covering people events activities organizations and many other aspects of the topic and includes an overview of violence in the U S and a listing of organizations publications and web resources related to violence Point Blank Gary Kleck,2017-07-12 By 1990 there were approximately 200 million guns in private hands in the United States and around half of American households contained a gun Over 30 000 people a year are killed with guns in suicides homicides and accidents and Americans use guns for defensive purposes as many as a million times a year There is little doubt that gun violence and control are issues of vital importance and they continue to inspire national debate It is doubtful however that most gun debates are worth listening to Not surprisingly they generally leave their participants exactly where they began with their biases intact and onlookers perplexed Written deliberately to counter an atmosphere of hysteria and extremism Point Blank now in paperback offers logical argument supported by

empirical information It confronts fundamental questions head on On its initial publication in 1993 Point Black won the Michael J Hindelang Award of the American Society of Criminology for the book that made the most outstanding contribution to criminology Point Blank reports both original research and assesses existing evidence drawn from a wide variety of academic disciplines including criminology sociology law and medicine

**Violent America: the Movies, 1946-1964** Lawrence Alloway,1971

**Violence in America** Mark L. Rosenberg,Mary Ann Fenley,1991 The USA is said to be a violent nation Historically violence and infectious disease have been the two leading causes of premature death yet until recently the field of public health has given little attention to violent behaviour This book presents the first full epidemiological picture of violence in American society The aim of this volume is to draw together what is known about violence in our society and to lead the way towards involving health professionals in education prevention and intervention The authors all experts in their fields examine child spouse and elder abuse sexual assault and rape suicide assaultive violence and homicide To each topic they bring an analysis of key issues in epidemiology causal and risk factors outcomes and interventions
