## **Virilio Reader:**

*Paul Virilio Reader* Steve Redhead, 2019-08-07 This Reader collects together for the first time extracts of Virilio's work from the entire range of his career. Virilio has produced important theory at the speed of light that can uncannily illuminate the impact of new information and communications technologies in a world which collapses time and distance as never

before. *The Virilio Reader* James Der Derian, 1998-10-15 First English language collection of the writing of French social critic Paul Virilio. This volume represents his most important work including five new translations and an exclusive interview with Virilio conducted by the editor reflecting the diverse career of this great social commentator on life in the late twentieth century.

**The Paul Virilio Reader** Paul Virilio, 2004 For more than fifty years Virilio has offered incisive and provocative criticism on technology and its moral, political and cultural implications. The Paul Virilio Reader collects for the first time English extracts reflecting the entire range of Virilio's diverse career. The book's introduction demonstrates that Virilio has produced an important if controversial theory at the speed of light that uncannily illuminates the impact of new information and communications technologies in a world that collapses time and distance as never before.

*Jean Baudrillard Reader* Steve Redhead, 2019-08-07 Jean Baudrillard was perhaps the most controversial of all social and cultural theorists. He has been variously vilified as a postmodernist, an overrated French theorist and one of the intellectual imposters. In his seventies he survived global fame and a name check in *The Matrix*; he also contracted cancer. His comments on 9/11, Abu Ghraib and Europe's suburban riots have been eagerly sought and digested. However, his translated publications since his first book in 1968 have left a trail of confusion and misinterpretation. Jean Baudrillard is a notorious figure, but few have read many examples of his entire oeuvre. There is now, though, a chance to read Baudrillard's texts in an overall historical, social and political context and for a cool re-assessment to be made of his life and work after his death. This book is a central part of that project. It concentrates on what Baudrillard has written over five decades and the order in which he wrote it. The Reader comprises extracts of Baudrillard's writings from the sixties to the noughties, with an editorial introduction and a concluding reading guide. Key Features: Arranged chronologically in order of first publication in French, the Reader illustrates the development and interconnectedness of Baudrillard's work since the 1960s. Each section has an extract of one of Jean Baudrillard's writings translated into English, prefaced by a short bibliographical introduction setting the scene. The Reader will be of interest to students and staff in a range of university courses across the globe and to those general readers interested in public intellectuals, media events and contemporary theory.

The Certeau Reader Michel de Certeau,2000

Universal (In the Realm of the Sensible) Dorothea Olkowski,2007-03-02 The Universal In the realm of the sensible Beyond Continental Philosophy proposes a radical new philosophical system that moves from ontology to ethics Dorothea Olkowski develops the concept of an ontological unconscious a connection arising from our sensible relation to the world that conditions encounters with the environment and with others This fundamental ontology rethinks the space time relations opened by Irigaray s notion of the interval Bergson s recollection Merleau Ponty s idea of the flesh and Deleuze s plane of immanence Writing in an original style inspired by literature and the arts Olkowski locates a realm of the senses a field of vulnerability felt as pleasures and pains This presents an aesthetic sense of something universal to all human kind as well as to the organic and inorganic world In addition to this proposal for a wider ontology the relation between traditional ontologies and politics is examined as a means of opening politics beyond a no exit or limit cycle Instead a multiplicity of self organized emergent perspectives emerges eliminating the need for the connections conjunctions and disjunctions of the Kantian paradigm at work in contemporary continental philosophy This is a timely controversial and important book that will contribute enormously to the study of Deleuze and Continental Philosophy

uncritical herald of technological determinism and capitalism This McLuhan is the oppositional critic of modernity resisting uncontrolled technological change who seeks new media forms with a human face Contributors from diverse international and academic perspectives include Douglas Kellner Nick Stevenson Gary Genosko Richard Cavell Lance Strate Glenn Willmott Patrick Brantlinger Donna Flayhan and Bob Hanke Marshall McLuhan was the first to theorize and to develop a concept of media indicating their importance to all areas of society and culture Today media are far more pervasive than in the 1950s and 1960s when he wrote Yet his work has still not received its due attention Transforming McLuhan will begin to correct this oversight Mark Poster University of California Irvine Author of What s the Matter with the Internet and Information Please Transforming McLuhan re reads the McLuhan phenomenon in light of today s media saturated 24 7 news and smartphone world Here we meet again with the visionary Tiresias in the Underworld whose dark sayings once lit the late afternoon of the twentieth century These critical readings create a time out to question him again and to open space time interstices for alternate thoughts and alternate actions Michael Heim Mount St Mary s College Los Angeles Author of The Metaphysics of Virtual Reality and Virtual Realism Transforming McLuhan offers a rich and textured reconsideration of Marshall McLuhan s ideas demonstrating how McLuhan s work is a better match for current multi dimensional and ambivalent understandings of media and culture than it was for the narrower conceptions that guided those who dismissed McLuhan in his own time These provocative and well written essays persuasively engage in what I have called morphing McLuhan with other key theoretical frameworks As a result Transforming McLuhan illustrates that cultural theorists have much to learn from McLuhanism but that McLuhan s perspective also has much room for enrichment t from critical media studies Joshua Meyrowitz University of New Hampshire Author of No Sense of Place The Impact of Media on Social Behavior
