## **Virtue Vice Value:**

**Virtue, Vice, and Value** Thomas Hurka, 2000-12-28 What are virtue and vice and how do they relate to other moral properties such as goodness and rightness Thomas Hurka defends a distinctive perfectionist view according to which the virtues are higher level intrinsic goods ones that involve morally appropriate attitudes to other independent goods and evils He develops this highly original view in detail and argues for its superiority over rival views including those given by virtue ethics

**Virtue, Vice, and Value** Thomas Hurka, 2003 Hurka's book puts forth a comprehensive theoretical account of moral virtue and vice More specifically it gives an account of the intrinsic goodness of virtue and intrinsic evil of vice that can fit into a consequentialist moral theory

**Puritan Race Virtue, Vice, and Values, 1620-1820** Joseph R. Washington, 1987 Against the background of John Calvin's capitalist economy monocratic politics and individual faith and ethics doctrine of predestination for European middle and upper classes this book compares and contrasts the promise and performance of double election Puritan saints in matters of human bondage class values color consciousness and caste virtue Washington focuses on an analysis of Evangelical Calvinist major figures such as public servant and partisan party power advocate Cotton Mather and the civil affairs neutral Jonathan Edwards He also examines respective proslavery and antislavery Calvinist and Quaker Puritan parsons and denominations as well as the antiabolitionist fathers of antiabortionist Southern Baptist sons

The Value & Dignity of Human Life as Shown in the Striving and and Suffering of the Individual Charles Gray Shaw, 1911

**Shadow Sophia** Celia E. Deane-Drummond, 2021-02-25 Why do humans who seem to be exemplars of virtue also have the capacity to act in atrocious ways What are the roots of tendencies for sin and evil A popular assumption is that it is our animalistic natures that are responsible for human immorality and sin while our moral nature curtails and contains such tendencies through human powers of freedom and higher reason This book challenges such assumptions as being far too simplistic Through a careful engagement with evolutionary and psychological literature Celia Deane Drummond argues that tendencies towards vice are more often than not distortions of the very virtues that are capable of making us good After beginning with Augustine's classic theory of original sin the book probes the philosophical implications of sin's origins in dialogue with the philosophy of Paul Ricoeur Different vices are treated in both individual and collective settings in keeping with a multispecies approach Areas covered include selfishness pride violence anger injustice greed envy gluttony deception lying lust despair anxiety and sloth The work of Thomas Aquinas helps to illuminate and clarify much of this discussion on vice including those vices which are more distinctive for human persons in community with other beings Such an approach amounts to a search for the shadow side of human nature shadow sophia Facing that shadow is part of a fuller understanding of what makes us human and thus this book is a contribution to both theological anthropology and theological ethics
