Triune God Adam Dodds, 2017-07-31 Lesslie Newbigin was arguably the greatest missionary thinker of the twentieth century After a successful missionary career in south India Newbigin pioneered missionary engagement with the secular West and resurgent Islam He also led the way in arguing that the Church's mission can only be understood in light of the doctrine of the Trinity Over fifty years ago Newbigin called for the further development of missionary thinking grounded in the Triune being of God This work is in response to that call Adam Dodds provides the first in depth study of Newbigin's trinitarian theology of mission Dodds constructs a systematic account of the central features of the mission of the Triune God the Triune being of God the mission of the Son the mission of the Holy Spirit and the mission of the church This book contributes to our understanding of the work of Lesslie Newbigin offers a systematic theological account of the mission of the Triune God and contributes to the retrieval of Christian mission from the theological margins back to a place of central importance to Christian theology *Transcending Mission* Michael W. Stroope, 2017-02-28 Is the language of mission clearly

Athanasius: Select works and letters. 1892 Philip Schaff, Henry Wace, 1917 Countering Mission Drift in a Faith-based Organization Peirong Lin, 2019-09-27 This book presents the case study of World Vision as a useful contribution in the

discussion of mission drift a common phenomenon facing faith based organizations Mission drift has been categorised as a drifting away from the organization's founding mission purpose and identity Practical theological interpretation is undertaken in this case study There are four phases involved in this approach design collection analysis and recommendation In the first phase design the key terms of the dissertation are explicated One key model used is the identity formation model of organizations In the second phase collection the actual collection of the empirical research is documented Empirical research was done in two separate locations where World Vision worked in Papua New Guinea and Nepal In the third phase analyzing the findings of the empirical research are analysed firstly using the identity formation model and more normatively

Overflow Michael Reeves,2021-07-06 What does the Trinity have to do with missions As it turns out everything Too often we put theology in one part of the Christian life and missions in another and they never meet A doctrine like the Trinity belongs in the intellectual realm while missions belongs with the practical parts of life Or so we think But is that really the way it should be Michael Reeves wants you to understand that the doctrine of the Trinity has everything to do with the practice of missions When a Christian sees the Father Son and Holy Spirit as divine persons who are so full of love that it radiates and overflows into creation and into the lives of human beings our perspective on missions is radically changed No longer is missions an obligation or a drudgery Instead realizing the abundance of love that goes forth from God we who have received and delighted in such love are motivated to go forth as well Let the radiance of God s triune beauty capture your heart Then God s great mission won t be a chore but will naturally overflow from your joyous delight in Him *A Select Library of the Nicene and Post-Nicene Fathers of the Christian Church* ,1905 **Julian of Norwich** Kevin

Magill,2006-07-13 Julian of Norwich was a fourteenth century woman who at the age of thirty had a series of vivid visions centred around the crucified Christ Twenty years later while living as an anchoress in a church she is believed to have set out these visions in a text called the Showing of Love Going against the current trend to place Julian in the category of mystic a classification which defines her visions as deeply private psychological events this book sets Julian s thinking in the context of a visionary project used to instruct the Christian community Drawing on recent developments in philosophy that debate the objectivity and rationality of vision and perception Kevin J Magill gives full attention to the depth and richness of the visual language and modes of perception in the Showing of Love In particular the book focuses on the ways in which Julian presented her vision to the Christian society around her demonstrating the educative potential of interaction between the isolated anchoress and the wider community Challenging Julian s identification as a mystic and solitary female writer this book argues that Julian engaged in a variety of educative methods oral visual conversational mnemonic alliterative that extend the usefulness of her text The teacher's Prayer book; the Book of common prayer, with introductions, analyses, and notes, by A. provides an in depth analysis on his doctrine Part two sets Edwards trinitarianism in historical context Part three demonstrates how Edwards employed the Trinity in his sermons in spiritual formation and in other areas of doctrine
