language in Nigeria has assumed great importance in Nigerian universities Against the background of key works from 1971
to 1991 and the growing debate over an optimal language policy for Nigeria he looks at the perspectives of an individual
writer to provide an overview of the language since its earliest contacts with what is now known as Nigeria One important
gap which he identifies is the paucity of illustrative data even from the three main Nigerian languages **The Gentleman's

Game of Justice argues that justice is politics that politics is something close to ordinary people and not located in an abstract
and distant institution known as the State and that the concept of the game provides a new way to appreciate the possibilities
of creating justice Justice as a game is played in a challenging environment that makes serious demands on the participants
in terms of self knowledge and individual self government and also in terms of understanding social behavior What the term
game provides is a radical opening of all established institutions the status quo is neither absolute nor inevitable but is the
result of past political controversy a result created by the winners to express their victory At the same time the game of
justice like all games is played over and over again with winners and losers changing places over time This serves as
encouragement to past losers and provides a cautionary reminder to past winners **Classical and Foreign Quotations**
