**Animals as Disguised Symbols in Renaissance Art** Simona Cohen,2008 The relationship between medieval animal symbolism and the iconography of animals in the Renaissance has scarcely been studied Filling a gap in this significant field of Renaissance culture in general and its art in particular this book demonstrates the continuity and tenacity of medieval animal interpretations and symbolism disguised under the veil of genre religious or mythological narrative and scientific naturalism An extensive introduction dealing with relevant medieval and early Renaissance sources is followed by a series of case studies that illustrate ways in which Renaissance artists revived conventional animal imagery in unprecedented contexts investing them with new meanings on a social political ethical religious or psychological level often by applying exegetical methodology in creating multiple semantic and iconographic levels Brill s Studies on Art Art History and Intellectual History vol 2

[Hindu Narratives on Human Rights](#) Arvind Sharma,2009-12-21 This pioneering work examines the existing understanding of Hinduism in relation to human rights discourse Written by a leading Hindu scholar Hindu Narratives on Human Rights is organized around specific rights such as the right to own property the rights of children women s rights and animal rights Within these categories and in light of the questions they raise the book provides a guided tour of Hindu narratives on ethics ranging from the famous religious epics the Mahabharata and the Ramayana to various forms of secular literature drawn from almost a thousand years of Indic civilization The realization that Hindu ethical discourse is narrative rather than propositional is a relatively recent one Hence the prevailing tendency in the West has been to overlook it in the context of the discussion of human rights

This book was written to correct that oversight It shows that the presence of the universal in the particular in Hindu stories is a key to understanding Hindu thinking about human rights and it indicates ways in which Hindu ethical discourse can interact creatively with modern human rights discourse *Panchatantra* ,2004-08 *The Social Construction of Virtue* George W.
