Introduction

- ▶ Good visualizations bring algorithms to life by graphically representing their various states and animating the transitions between those states, especially dynamic algorithm visualization which shows a continuous, movie like presentation of an algorithm's operations.
- ▶ Visualization allows the human visual system to extend human intellect, we can use it to better understand these important conceptual processes, other things, too.
- ▶ A technique for improving instruction in this critical area is to include algorithm and data structure visualizations and animations (here after referred to as "algorithm visualizations" or "AVs") into the curriculum.

Problem Def and purposed sol.

- ▶ It becomes quite confusing and tedious to visualize those algo on our own since
