Blackburn,2015-11-21 Nineteen year old Emery Kidd is one of two historians for her community As a chronicler she is aware of the minute details of a society dramatically changed since cellular regression began centuries ago However it is only now after one of her lifetimes has passed that she discovers an important fact about her own heritage She is the daughter of the most famous of regeneratives to have ever lived Consequently she will learn just what it means to be the progeny of a martyred woman Mother and daughter undoubtedly bear a strong resemblance to one another but more than her auburn hair and expressive facial features Emery would like to believe she has inherited her mother s strength of character as well Yet believing and knowing are entirely separate matters As destiny often unfolds a plan unforeseen Emery may just find the opportunity to test her belief In fact the entire human population will come face to face with their true inheritance The question is how the consequences of this legacy will be received Regenkind has forgotten that the mere passage of time does not come with it an entitlement to life To live to prosper is a path that is earned and unless something is done to quell the complacency it will lead to the demise of the race
