**Envy, Poison, and Death** Esther Eidinow, 2016 At the heart of this volume are three trials held in Athens in the fourth century BCE The defendants were all women and in each case the charges involved a combination of ritual activities Two were condemned to death Because of the brevity of the ancient sources and their lack of agreement the precise charges are unclear and the reasons for taking these women to court remain mysterious *Envy Poison and Death* takes the complexity and confusion of the evidence not as a riddle to be solved but as revealing multiple social dynamics It explores the changing factors material ideological and psychological that may have provoked these events It focuses in particular on the dual role of envy *phthonos* and gossip as processes by which communities identified people and activities that were dangerous and examines how and why those local even individual dynamics may have come to shape official civic decisions during a time of perceived hardship At first sight so puzzling these trials reveal a vivid picture of the socio political environment of Athens during the early mid fourth century BCE including responses to changes in women's status and behaviour and attitudes to

ritual activities within the city The volume reveals some of the characters events and even emotions that would help to shape an emergent concept of magic it suggests that the boundary of acceptable behaviour was shifting not only within the legal arena but also through the active involvement of society beyond the courts

**The Evolution of Homicide Trials in Classical Athens from Greek Religious Laws and Practices** Andrea Lee Wright,1999 This thesis demonstrates that the homicide laws and practices of Classical Athens evolved from religious laws and practices from the earlier periods of the Greek religion and that the belief which most readily promoted the development of homicide trials was restoring honor to those who had lost it through wrong doings The ideas of honor and justice were the central concepts of the early Greek religious beliefs and it was just those ideas of honor and justice that led to the evolution of the Athenian legal system In the Greek religion men used the practice of sacrifice to honor the gods who were angered by murderers and punished them before they shared their pollution with the city In the Classical Age the concepts of honor and justice are seen in the statutes and procedures of homicide trials

**Envy, Poison, and Death** Esther Eidinow,2016 This volume explores three trials conducted in Athens in the fourth century BCE the defendants were all women charged with undertaking ritual activities but much of the evidence remains a mystery The author reveals how these trials provide a vivid glimpse of the socio political environment of Athens during this time

**Political Trials in Theory and History** Jens Meierhenrich,Devin O. Pendas,2017-02-27 From the trial of Socrates to the post 9 11 military commissions trials have always been useful instruments of politics Yet there is still much that we do not understand about them Why do governments use trials to pursue political objectives and when What differentiates political trials from ordinary ones Contrary to conventional wisdom not all political trials are show trials or contrive to set up scapegoats This volume offers a novel account of political trials that is empirically rigorous and theoretically sophisticated linking state of the art research on telling cases to a broad argument about political trials as a socio legal phenomenon All the contributors analyse the logic of the political in the courtroom From archival research to participant observation and from linguistic anthropology to game theory the volume offers a genuinely interdisciplinary set of approaches that substantially advance existing knowledge about what political trials are how they work and why they matter

**Trial Stories in Jewish Antiquity** Chaya T. Halberstam,2025-05-15 What can early Jewish courtroom narratives tell us about the capacity and limits of human justice By exploring how judges and the act of judging are depicted in these narratives Trial Stories in Jewish Antiquity Counternarratives of Justice challenges the prevailing notion both then and now of the ideal impartial judge As a work of intellectual history the book also contributes to contemporary debates about the role of legal decision making in shaping a just society Chaya T Halberstam shows that instead of modelling a system in which lofty inaccessible judges follow objective and rational rules ancient Jewish trial narratives depict a legal practice dependent upon the individual judge s personal relationships reactive emotions and impulse to care Drawing from affect theory and feminist legal thought Halberstam offers original readings of some of the most famous trials in ancient

Jewish writings alongside minor case stories in Josephus and rabbinic literature She shows both the consistency of a counter tradition that sees legal practice as contingent upon relationship and emotion and the specific ways in which that perspective was manifest in changing times and contexts *Democracy in Classical Athens* Christopher Carey,2017-01-12 For two centuries classical Athens enjoyed almost uninterrupted democratic government This was not a parliamentary democracy of the modern sort but a direct democracy in which all citizens were free to participate in the business of government Throughout this period Athens was the cultural centre of Greece and one of the major Greek powers This book traces the development and operation of the political system and explores its underlying principles Christopher Carey assesses the ancient sources of the history of Athenian democracy and evaluates criticisms of the system ancient and modern He also provides a virtual tour of the political cityscape of ancient Athens describing the main political sites and structures including the theatre With a new chapter covering religion in the democratic city this second edition benefits from updates throughout that incorporate the latest research and recent archaeological findings in Athens A clearer structure and layout make the book more accessible to students as do extra images and maps along with a timeline of key events *The Trial* Sadakat Kadri,2005 With tremendous wit clarity and insight Kadri journeys through 2 500 years of jurisprudence and reveals how age old superstitions often religious and mystical sometimes even sacrificial continue to infuse what is thought of as a quintessentially rational process **Great Trials and the Law in the Historical Imagination** Russell L. Dees,2022-07-29 *Great Trials and the Law in the Historical Imagination* A Law and Humanities Approach introduces readers to the history of law and issues in historical legal and artistic interpretation by examining six well known historical trials through works of art that portray them *Great Trials* provides readers with an accessible non dogmatic introduction to the interdisciplinary law and humanities approach to law legal history and legal interpretation By examining how six famous notorious trials in Western history have been portrayed in six major works of art the book shows how issues of legal historical and artistic interpretation can become intertwined the different ways we embed law in narrative how we bring conscious and subconscious conceptions of history to our interpretation of law and how aesthetic predilections and moral commitments to the law may influence our views of history The book studies well known depictions of the trials of Socrates Cicero Jesus Thomas More the Salem witches and John Scopes and provides innovative analyses of those works The epilogue examines how historical methodology and historical imagination are crucial to both our understanding of the law and our aesthetic choices through various readings of Harper Lee s beloved character Atticus Finch The first book to employ a law and humanities approach to delve into the institution of the trial and what it means in different legal systems at different historical times this book will appeal to academics students and others with interests in legal history law and popular culture and law and the humanities *Religious Individualisation* Martin Fuchs,Antje Linkenbach,Martin Mulsow,Bernd-Christian Otto,Rahul Bjørn Parson,Jörg Rüpke,2019-12-16 This volume brings together key findings of the long term research project *Religious Individualisation* in

Historical Perspective Max Weber Centre for Advanced Cultural and Social Studies Erfurt University Combining a wide range of disciplinary approaches methods and theories the volume assembles over 50 contributions that explore and compare processes of religious individualisation in different religious environments and historical periods in particular in Asia the Mediterranean and Europe from antiquity to the recent past Contrary to standard theories of modernisation which tend to regard religious individualisation as a specifically modern or early modern as well as an essentially Western or Christian phenomenon the chapters reveal processes of religious individualisation in a large variety of non Western and pre modern scenarios Furthermore the volume challenges prevalent views that regard religions primarily as collective phenomena and provides nuanced perspectives on the appropriation of religious agency the pluralisation of religious options dynamics of de traditionalisation and privatisation the development of elaborated notions of the self the facilitation of religious deviance and on the notion of dividuality
