Trinity'S Children D. F. Scovil,2012-06-01 As Gregory Howland embarks on a journey from Edmonton Canada to Trinity an isolated mining community where he hopes to start over with his wife and three children in tow he has no idea that their appearance will awaken a diabolical power trapped in the mine beneath the town that is focused on achieving only one goal the destruction of the world The Howlands settle into an old mansion in Trinity and Gregory begins a teaching job Soon however they discover through their nightmares and other visions that their town was the scene of a series of brutal murders during the winter of 1937 followed by an earthquake that obliterated its inhabitants As the mere presence of the Howlands seem to revive dark forces within their home the three children realize that they are all that stand in the way of an evil presence ready to unleash its fury Now all they have to do is to decide whether to take a stand against the monster or lead its forces in an unforgettable virtual battle In this riveting tale of horror an innocent family is caught in the grips of a town with a nasty secret a secret that will determine who will live and who will die

Nuclear Threats and Security Challenges Samuel Apikyan,David Diamond,2015-06-30 With the dissolution of the Soviet Union the nuclear threats facing the world are constantly evolving and have grown more complex since the end of the Cold War The diversion of complete weapon systems or nuclear material to rogue nations and terrorist organizations has increased The events of the past years have proved the necessity to reevaluate these threats on a level never before considered In recognition that no single country possesses all of the answers to the critical scientific institutional and legal questions associated with combating nuclear and radiological terrorism the NATO Advanced Research

Workshop on Preparedness for Nuclear and Radiological Threats and this proceeding was structured to promote wide ranging multi national exploration of critical technology needs and underlying scientific challenges to reducing the threat of nuclear radiological terrorism to illustrate through country specific presentations how resulting technologies were used in national programs and to outline the role of legal policy and institutional frameworks in countering nuclear radiological terrorism One key outcome of this book is better understanding of the interdependent contributions from across the international community of the scientific and technological components and the legal policy and institutional components to combating nuclear and radiological threats
